examinations and music music outside of the curriculum One of the main premises of the book is that music needs to be taught musically with specific reference to both the nature of music itself and its metaphorical significance It is important that music itself guides what goes on in the music classroom if we are to motivate our pupils and help them to fulfil their potential as musicians This book will help student teachers to develop their subject knowledge teaching skills understanding of the wider issues and their ability to reflect on classroom practice Teaching Music Gary Spruce,2023-05-09 Music education has undergone a remarkable transformation in recent years Whereas lessons were once characterised by their passivity children now learn about music through actively engaging in it by performing composing listening and appraising This reader places music education in context and then goes on to examine a range of issues linked to the teaching and learning of music The latter half of the book concentrates on music education within the classroom highlighting the kinds of points which all teachers of music will have to consider *Teaching Music Creatively* Pamela Burnard,Regina Murphy,2013-06-07 Offering a brand new approach to teaching music in the primary classroom *Teaching Music Creatively* provides training and qualified teachers with a comprehensive understanding of how to effectively deliver a creative music curriculum Exploring research informed teaching ideas diverse practices and approaches to music teaching the authors offer well tested strategies for developing children s musical creativity knowledge skills and understanding With ground breaking contributions from international experts in the field this book presents a unique set of perspectives on music teaching Key topics covered include Creative teaching and what it means to teach creatively Composition listening and notation Spontaneous music making Group music and performance The use of multimedia Integration of music into the wider curriculum Musical play Cultural diversity Assessment and planning Packed with practical innovative ideas for teaching music in a lively and creative way together with the theory and background necessary to develop a comprehensive understanding of creative teaching methods *Teaching Music Creatively* is an invaluable resource for undergraduate and postgraduate students in initial teacher training practising teachers and undergraduate students of music and education

The Making of Musicians T. H. Yorke Trotter,2013-11 An excerpt from the beginning of the first chapter I FIRST PRINCIPLES MUSIC SHOULD BE THE MOST POPULAR ART WHICH should be the most popular of the arts Undoubtedly music for it is natural to all men to express their feelings in rhythmic motion and in sound and music is the art of rhythmic motion in sound We hear on all sides the attempt at self expression in musical sound The boy whistles as he goes about his occupations the working girl sings at her work to all of us alike the first means of self expression are to be found in music Moreover we hear music everywhere in nature We all know what a charm in life is given by the sweet songs of birds while we seem to hear a music in the splash of the waves of the sea and in the sighing of the wind There is music all around us though some of us are slow to hear it And yet we must admit that the study of this art of music is not at the present time a joy to the pupil but rather in many cases a wearisome task There is only this horrid music that comes between us mother said the little

boy in the Punch story and his case is by no means a singular one Often do we hear people say they are unmusical and hate music there is no universal wish to learn the secret of the art THE REASON WHY THE STUDY OF MUSIC IS OFTEN SO MUCH DISLIKED Why is it that the study of music is not popular Why is it that there is so much unwillingness to give up time to learn to play on an instrument or to use the voice with good effect The answer is simply this that as a rule the teaching of music has been merely a giving of facts facts of notation that is to say imparting the knowledge of the symbols used to express musical sounds and what I may call facts of technique that is to say the training of the muscles so as to obtain the best results in practical performance on an instrument or in the production of the singing voice The piano is the instrument that is most used in the teaching of music and the methods adopted in teaching performance on the piano may be taken as emblematic of those used in other branches of musical education The child is taught what are called notes that is the symbols used to express musical sound and the use of the keys on the piano that when pressed down reproduce these sounds The muscles are trained to be strong and pliable and to answer quickly and readily the orders of the brain This teaching is carried on until the pupil can read the notation of music and can play pieces correctly and possibly with good tone and proper attention to the phrasing or articulation of the music At the same time the pupil may be taught what is incorrectly called the theory of music that is to say he may be given the knowledge of all the symbols used their meaning and effect the construction of scales the use of signatures at the beginning of a piece and the like Making Music in the Primary School Nick Beach, Julie Evans, Gary Spruce, 2010-12-16 Making Music in the Primary School is an essential guide for all student and practising primary school teachers instrumental teachers and community musicians involved in music with children It explores teaching and learning music with the whole class and provides a framework for successful musical experiences with large groups of children Striking the perfect balance between theory and practice this invaluable text includes case studies and exemplars carefully designed activities to try out in the classroom as well as a range of tried and tested teaching strategies to help you support and develop children s musical experience in the classroom Grounded within a practical philosophical and theoretical framework the book is structured around the four key principles that underpin effective music teaching and experience Integration how can we join up children s musical experiences Creativity how can we support children s musical exploration Access and Inclusion how can we provide a relevant experience for every child Collaboration how might we work together to achieve these aims Written in a clear accessible and engaging style Making Music in the Primary School will give you all the confidence you need when working with whole classes whatever your musical or teaching background
