Teaching The Gospel Today A Guide For Education In The Congregation:

Teaching the Gospel Today Margaret A. Krych, 1987 *The Ministry of Children's Education* Margaret A.

Krych, 2004-01-01 This highly anticipated resource establishes the importance of children's education to the life of today's faith communities. A very readable textbook, *The Ministry of Children's Education* presents foundations for education in the faith, explores contexts in which contemporary faith is nurtured, and suggests practical helps for creating programs that work in congregations. Systematic Theology, Volume 2, Second Edition James Leo Garrett, 2014-09-14 Rivals the major systematic theologies of this century. *Baptist History and Heritage Journal* July 1996 One of the characteristics of Garrett's system that needs especially to be noted is its balanced, judicious, and nearly invariably objective presentation of materials. While holding true to the teachings of his own Baptist faith, Garrett so carefully and judiciously presents alternatives that teachers and students from other confessional and denominational positions will find his work instructive. *Consensus* 1997 If one is searching for an extensive exposition of the biblical foundations and historical developments of the various loci of systematic theology, there is no more complete presentation in a relatively short work than this. Pastors will especially find this feature to be a real help in teaching theology. It is an indispensable contribution to the task of systematic theology. *Journal of the Evangelical Theological Society* September 1999 Many students and pastors will find all they need here and will, in addition, be helped to relate their knowledge to recent developments in the theological world. *The Churchman: A Journal of Anglican Theology* 1991 A gold mine of helpful material. *The Christian Century* May 29/June 5 1991 No book that I know is more loaded with biblical and theological facts than this one. The prodigious research that must have gone into the preparation of this volume is truly mind-boggling. *Faith and Mission* Fall 1991 Garrett has provided a massive and scholarly systematic theology from a thoroughly conservative and comprehensive viewpoint. The work is well documented in both biblical and historical scholarship and will prove to be a classic. William Hendrickson, Southern Baptist Theological Seminary One of the most comprehensive, concise books of its type available, it should receive wide use in the classroom and in the study. Robert H. Culpepper, Southern Baptist Theological Seminary **The Logic of the Spirit in Human Thought and Experience** Dana R. Wright, Keith J. White, 2014-09-18 In March 2012 a small consultation convened on the campus of Princeton Theological Seminary where James E. Loder Jr. had served for forty years as the Mary D. Synnott Professor of the Philosophy of Christian Education. Members from the Child Theology Movement had begun to read Loder's work and they wanted to go further. So they invited former students of Loder's to meet with them for conversations about things that really mattered to them and to Loder: human beings and especially children, the church's witness to the gospel of Jesus Christ, and discerning the work of Spiritus Creator in the postmodern world. The conversations proved rich and rewarding, and some would even say they took on a life of their own: serious scholarship set to the music of the Spirit's communion, creating artistry, forming new relationships, inspiring new ideas, and sustaining all of it amid much laughter, joy, and hope. These essays

taken from the papers delivered at the consultation are offered as a means of extending that conversation inspired by Loder's interdisciplinary practical theological science and his discernment of the logic of the Spirit. They are offered with confidence that the same Spirit continues to work in all persons who hope for the Spirit's redemptive transformation of all creation beginning with children.

Teaching Like Jesus is a handbook for Christian education in local churches that applies Jesus' methods to make the Bible culturally relevant for today.

Church History Study Guide, Pt. 3 Randal S. Chase, 2012-05-31

Church History Study Guide Pt 3 Latter Day Prophets Since 1844 This volume is the third of three on Church History and the Doctrine and Covenants. It covers Church history during the administration of all of its Prophet-Prophets since Joseph Smith. It begins with the succession of the Apostles after Joseph Smith's martyrdom, the building of the Nauvoo Temple and the trek to the west of the Latter-day Saint pioneers. We follow them through Iowa, Winter Quarters, and on to Utah. We witness the colonization of the state of Deseret while the rest of the country suffered from Civil War. Then we follow events through the administrations of all of the 19th Century, 20th Century, and 21st Century prophets from John Taylor to Thomas S. Monson. We become familiar with the early lives, missions, marriages, and callings of each of these prophets, seeing how the Lord prepared them for the particular time that they led the Church. We finish with a look toward the future as we await the Second Coming of our Lord. The cover features a beautiful photograph of the Salt Lake Temple taken at dusk during the Christmas season from the roof of the Joseph Smith Memorial Building.

International Handbook of the Religious, Moral and Spiritual Dimensions in Education Marian de Souza, Gloria Durka, Kathleen Engebretson, Robert Jackson, Andrew McGrady, 2007-06-04

Traditionally, spirituality has resided and been contained within religious frameworks, but while the links between the two areas are still acknowledged by many in the contemporary world, spirituality is perceived by some as an aspect of human life that is distinct from religion. Consequently, many are searching for meaning within and without religious traditions today and seeking answers to ethical and moral questions that have been generated by the knowledge and technological explosion. One outcome is the renewed interest in the religious, spiritual, and moral dimensions of education throughout the life cycle. This International Handbook presents the research and professional practice of scholars who are daily engaged in the consideration of these dimensions in education. The result is a collection of essays which reflects the discipline in all of its internationality as it is today. Embedded within the chapters is also an agenda for the future where the religious, moral, and spiritual dimensions in education are proposed as an exciting and challenging way forward for educators at all levels in society. As well, it offers a vision for the emergence of a peaceful and just world.
