Creativity in Primary Education

Anthony Wilson, 2009-05-11

A sound understanding of the role primary creativity plays in learning and teaching will help trainee teachers become creative practitioners and develop creativity in their pupils The second edition of this popular text retains key material from the previous book but it has been substantially updated and revised to include six new chapters which explore creativity in both a subject specific context as well as the broader issues of creativity in SMSC and the Foundation Stage The book is linked throughout to the Standards for the award of QTS and also considers important government agendas such as Every Child Matters History 5-11 Hilary

Cooper, 2012-06-25 History 5 11 addresses the key issues surrounding the teaching of history in the primary curriculum With an emphasis on the importance of learning about the past through the processes of historical enquiry this textbook will be an invaluable resource to all trainee and practising primary teachers interested in teaching history in an accessible dynamic and above all enjoyable way This fully updated second edition highlights Examples of good practice Meaningful assessment and record keeping Planning for progression and differentiation The primary to secondary transition Cross curricular approaches to history This book also analyses the most recent and salient reports concerning primary education including the 2011 Ofsted report History for All the Historical Association Primary Survey 2011 and the findings of the Cambridge Review It contains case studies lesson planning guidance and methods to develop pupils historical understanding as well as offering creative and innovative ways to teach the subject of history in the primary classroom

Rethinking Play and Pedagogy in

Early Childhood Education Sue Rogers, 2010-11-05 Bringing together a collection of chapters from international experts in the field of early childhood education Rethinking Play and Pedagogy in Early Childhood Education seeks to explore how play in the Early Years is valued as a means of learning The book discusses how play is presented transformed by institutional and

pedagogical discourses and ultimately experienced by children Adopting cultural conceptual and contextual approaches to play and pedagogy across its chapters this book addresses contemporary emerging issues surrounding play and pedagogy including the application of critical and socio cultural analyses to play in early childhood renewed interest in the aesthetic creative and affective dimensions of play in early childhood education competing discourses of performativity market forces social reconstruction and child centredness children s voice and participation within educational settings globalization migration and cultural pluralism the role of digital technology in early childhood education diversity identity and social justice within early childhood settings With international appeal and relevance this book will be of interest to students taking undergraduate Masters and doctoral courses in early childhood education childhood and education studies as well as academic teachers and researchers policy makers and international agencies working with young children

Play development in children with disabilities Serenella Besio, Daniela Bulgarelli, Vaska Stancheva-Popkostadinova, 2016-01-01 This book is the result of the first two year work of Working Group 1 of the network LUDI Play for children with disabilities LUDI is an Action 2014 2018 financed by COST it is a multidisciplinary network of more than 30 countries and almost 100 researchers and practitioners belonging to the humanistic and technological fields to study the topic of play for children with disabilities within the framework of the International Classification of Functioning Disability and Health WHO 2001 The principal objective of this book is to bring the LUDI contribution to the important topic of play in children with disabilities because today an international consensus on the definition of play and disabilities is still lacking The process of ensuring equity in the exercise of the right to play for children with disabilities requests three actions to approach this topic through a common language at least all over Europe to put play at the centre of the multidisciplinary research and intervention regarding the children with disabilities to grant this topic the status of a scientific and social theme of full visibility and recognized authority Children with disabilities face several limitations in play due to several reasons impairments playgrounds toys and other play tools that are not accessible and usable environments and contexts that are not accessible nor inclusive lack of educational awareness and intentionality lack of specific psycho pedagogical and rehabilitative competence lack of effective intervention methodologies Moreover disabled children s lives are dominated by medical and rehabilitative practices in which play is always an activity aiming to reach an objective or to provoke an improvement play for the sake of play is considered a waste of time The concept of play for the sake of play strongly refers to the distinction between play activities and play like activities Play activities are initiated and carried out by the player alone with peers with adults etc for the only purpose of play itself fun and joy interest and challenge love of race and competition ilinx and dizziness etc They have of course consequences on growth and development but these consequences are not intentionally pursued Play like activities are initiated and conducted by an adult with one or more children in educational clinical social contexts they are playful and pleasant but their main objective is other than play e g cognitive learning social learning

functional rehabilitation child s observation and assessment psychological support psychotherapy etc This book then contributes to a clear distinction between play and play like activities that hopefully will bring to new developments in play studies
