John Mitchell,2016-01-28 No matter what you teach there is a 100 Ideas title for you The 100 Ideas series offers teachers practical easy to implement strategies and activities for the classroom Each author is an expert in their field and is passionate about sharing best practice with their peers Each title includes at least ten additional extra creative Bonus Ideas that won't fail to inspire and engage all learners _____ The word revision can strike fear into the heart of teachers and students alike The exam cycle in today's modern education system can feel relentless resulting in students suffering from information overload and exam fatigue But it doesn't have to be like this John Mitchell strongly believes that revision can be an opportunity to deepen students understanding of a topic in an innovative collaborative and fun way you just need to think outside the box In this brilliant book John Mitchell offers a diverse range of activities games tips and tricks that teachers can use in the classroom to help guide students through this stressful period By combining theory with strategies tried and tested in the classroom it will help teachers to create a culture where students are encouraged to review and reinforce their learning This consistent approach means that revision becomes an everyday process rather than one that is just used in the run up to exams From adaptations of well known games such as Connect Four and Runaround to brand new activities there are ideas that are suitable for every learning style and subject All of this will help you to prepare students for exams effectively alleviate stress and reintroduce fun into your revision sessions [Resources in Education](#) ,1999 [Teaching in Primary Schools in China and India](#) Nirmala Rao,Emma Pearson,Kai-ming Cheng,Margaret Taplin,2013-02-11 This book compares primary education in urban and rural China and India It focuses on how the sociocultural context including educational policy educators and parents beliefs and the conditions under which teaching and learning occur shape

classroom pedagogy and determine children's attainment. This in-depth authentic comparative analysis of the two largest educational systems in the world is a must read for scholars interested in the teaching and learning in these two rapidly developing Asian cultures. A common set of questions has been addressed in diverse contexts. The empirical work on which this book is based is most impressive: videotaping of mathematics and language lessons; interviews with parents and educators; questionnaires with parents, teachers, and children; and tests of children's mathematics attainment, and this done in 3 locations in China, 3 in India, and 12 schools in total.
