Shhh Learning Can Be Fun! Focus Research, 2012-08-10 We are a group of

retired teachers who would like to share with other teachers some things we found very effective in the classroom When I would attend seminars Teacher Days Training Sessions Retreats or get new professional reading materials I would demand to know if this was all theory developed in some rich private school in suburbia or will there be something shared with me over these vast hours that I can take back to my classroom and use TOMORROW Something that will help my kids cope with a system not designed for them to succeed something that will help them understand better something that will motivate them to want a ticket for the big show or something that will sharpen a skill in an enjoyable way Hopefully this book will show you not only how the activities games competitions and contests evolved that helped my kids dirt poor inner city kids usually 90% minority 85% free and reduced lunch and proudly illiterate Almost all of these kids hated school hated Reading and were trapped in a peer level that hated and distrusted anything academic or intelligent So as you can see teachers in this kind of classroom are trapped by the administration who wants the curriculum strictly adhered to the parents who want a miracle performed but don t want to get involved the boyz who don t want to date any smart girls Their teacher wants to help them win this battle Teachers also must compete for the attention and talents of our children offering only hard work in class and hard work at home at night in an arena against the Titans of TV and Video Billion dollar television production budgets which produce HD 3D and CGI programming about dream lands and superheroes of the future who solve all their problems They also must fight against an addictive hypnotic video game industry with billions of dollars available for developing video games with International Assault Teams games of mass murder games of mass destruction and games of sexual abuse as rewards in mind numbing international wars right on their TV screens Addictive video games which are so hypnotic and marvelous that adults are also getting hooked on them All of this and much more battling against a Teacher who wants to work hard help the kids and enjoy their job A teacher armed only with a textbook whiteboard with assorted color markers and an overhead projector to do battle with HD 3D CGI a cool high tech world of gadgets and games for the hearts and minds of America s youth America s future Well hopefully this book will provide our teachers with some new ammunition to do battle with A way to improve the attitudes of the kids and make them wanna come to your class Most of my class acquired learning of new skills was only accomplished by them so that they could compete This allowed me to introduce the initial instruction as a training camp which was their Beginning to Winning Time or their Discovery Time depending on what we were doing Next was usually their time to create the challenges or question weapons they would use to compete with or time for them to be creative to research and design their project or study the lay of the information that they were going to compete on I will try to help you throughout this challenge of the classroom I will give you the activities games and contests which evolved over my years in the classroom Sometimes there may be a story of the motivational factors which created the need for this game contest or competition or maybe a classroom or life story which caused it My tragedies and triumphs will both be here for you to use and improve upon When you see NOTES FROM THE MARGIN those are game tips When you see

NOTES FROM THE EDGE those are behavioral tips on classroom control The Comprehension improvement section is worth the price of the book for any parent with a student or for the entire family *Teaching and Learning in Saudi Arabia* Amani K Hamdan, 2015-12-01 Saudi Arabia is witnessing unprecedented progress in the field of higher education Even though the country opened its first university in 1957 so far there seems to be little English scholarly writing about Saudi education in general and higher education in particular The current expansion of Saudi Arabia s higher education system has put a spotlight on this serious gap in the international literature This book helps to fill this lacuna through the work of 16 scholars who have contributed to the development of the Saudi education system In so doing the book reveals areas where more research is required and thus provides a useful starting point for education scholars This anthology is unique in that it is the first to offer a comprehensive perspective on the current knowledge base pertaining to Saudi higher education as well as to the ongoing efforts to introduce reforms **Successful Teaching** Scott D.
