Langrall, 2008

NCTM's Process Standards support teaching that helps students develop independent effective mathematical thinking. The books in the Heinemann Math Process Standards Series give every middle grades math teacher the opportunity to explore each standard in depth. The series offers friendly reassuring advice and ready to use examples to any teacher ready to embrace the Process Standards. In *Introduction to Connections*, Cynthia W. Langrall, Sherry L. Meier, Edward S. Mooney, and Honi J. Bamberger familiarize you with ways to help students see the relationships between and among mathematical skills and content. They offer an array of entry points for understanding planning and teaching including strategies that help students build upon and link mathematical thinking across units by recognizing connections among math concepts, real world applications, and other content areas. The book and accompanying CD-ROM are filled with activities that are modifiable for immediate use with students of all levels, customizable to match your specific lessons. In addition, a correlation guide helps you match the math content you teach with the mathematical processes it utilizes. If your students aren't making mathematical connections or if you're simply looking for ways to work the connections standard into your curriculum, read *dog ear and teach with Introduction to Connections*. And if you'd like to learn about any of NCTM's process standards or you're looking for classroom tested ways to address them, look no further than Heinemann's Math Process Standards Series. You'll find them explained in the most understandable and practical way from one teacher to another.

**Connecting Disciplinary Literacy and Digital Storytelling in K-12 Education** Haas, Leslie, Tussey, Jill, 2021-01-15. The idea of storytelling goes beyond the borders of language, culture, or traditional education and has historically been a tie that bonds families, communities, and nations. Digital storytelling offers opportunities for authentic academic and non-academic literacy learning across a multitude of genres. It is easily accessible to most members of society and has the potential to transform the boundaries of traditional education. As concepts around traditional literacy education evolve and become more culturally and linguistically relevant and responsive, the connections between digital storytelling and disciplinary literacy warrant considered exploration. *Connecting Disciplinary Literacy and Digital Storytelling in K-12 Education* develops a conceptual framework around pedagogical connections to digital storytelling within K-12 disciplinary literacy practices. This essential reference book supports student success through the integration of digital storytelling across content areas and grade levels. Covering topics that include immersive storytelling, multiliteracies, social justice, and pedagogical storytelling, it is intended for stakeholders interested in innovative K-12 disciplinary literacy skill development, research, and practices, including but not limited to curriculum directors, education faculty, educational researchers, instructional facilitators, literacy professionals, teachers, pre-service teachers, professional development coordinators, teacher preparation programs, and students.
