Doing Practitioner Research Mark Fox, Gill Green, Peter Martin, 2007-03-21 Doing Practitioner Research focuses on helping practitioners conduct research in their own organisations and attention is given to the best methods for doing this effectively and sensitively The authors also attend to the theoretical political and organisational context of doing research as well as

addressing the ethical and practical issues of undertaking research The authors cover in detail the range of skills and techniques necessary to make a successful start to the process of becoming an effective practitioner researcher This is an ideal text for growing number of practitioners working in health education and social care who are undertaking research Fox et al have provided the perfect introduction to why practitioners are in the unique position to conduct research that actually improves professional practice This book will be essential reading for those professionals practitioners engaged in research in their own organisation or undertaking a post graduate qualification in Health Social Care or Education *Learning to Read: An Integrated View from Research and Practice* Terezinha Nunes, 2012-12-06 Literacy research has continued to develop at a rapid pace in these last five years of the millennium New ideas about how children learn to read have led to a better understanding of the causes of progress and failure in the mastery of literacy with repercussions for children's assessment and teacher education These new discoveries also allow teachers to transcend the old debates in reading instruction phonics versus whole language and offer the path to a synthesis At the same time research with teachers about their own implementation of methods and the development of their own knowledge about the teaching of literacy has produced a fresh analysis of the practice of literacy teaching Inspired by these developments teachers teacher educators and researchers worked together to produce this volume which promotes the integration of literacy research and practice

Whole Language Teaching, Whole-hearted Practice Monica Taylor, 2007 This seminal collection brings together the multiple perspectives of whole language educators over the course of the past thirty five years The essays illustrate the complex ways in which whole language teachers have been and continue to be political activists through their interactions with students the teachers' beliefs about teaching learning and curriculum their commitment to critical thinking and social justice their collaborative engagements with other teachers their role as leaders of change in schools and communities and finally their activism in society Although many believe that we are living in a climate where the term whole language is considered taboo the contributors to this book demonstrate hopefulness for the future of whole language as Yetta and Ken Goodman write in the concluding chapter whole language is alive and well *The Sentence Method of Teaching Reading* John Hubert Jagger, 1929 *Metacognition in Literacy Learning* Susan E. Israel, Cathy Collins Block, Kathryn L. Bauserman, Kathryn Kinnucan-Welsch, 2006-06-17 An examination of metacognition in literacy learning It provides the theoretical foundation that supports the teaching of metacognition new methods for metacognitive assessment and instruction in literacy contexts at all grade levels and new information on integrating metacognition into professional development programs *Children Learning To Read: International Concerns* Peter Pumfrey, 2003-12-16 This is the first of a two volume publication which provides an international perspective on how children learn to read Research studies and classroom experiences from around the world are reported highlighting implications for the design implementation and evaluation of classroom reading programmes Contributions and evidence is drawn from over 18 countries and despite the

national differences there are many common concerns and controversies From these three areas are identified the first is developing an improved understanding of the nature of children s early reading development the second is the consideration of the ways in which children s reading can be encouraged and finally issues of assessment in the context of accountability are addressed This volume deals with the first of these concerns **Teaching Reading to English Language Learners**
Thomas S. C. Farrell, 2009 Truly a pleasure to read with much helpful information Deb Bible Literacy Teacher CUSD 300 West Dundee IL The author models a program of success and helps the educator become better qualified in teaching the EL learner Lucia deSombre Malo Former Instructor Utah Valley State College Practical easy to implement methods for helping English language learners succeed in reading Successfully teaching reading to English language learners ELLs requires an in depth understanding of the unique processes by which they learn to read as well as proven strategies that teachers can use to support reading development This resource focuses on helping students read to learn instead of learn to read In clear accessible language this resource demystifies the research and clarifies the process for teaching reading to ELLs The author introduces the key principles of reading instruction for ELLs and offers a wealth of action oriented strategies for use before during and after reading to adapt for individual student needs Each chapter includes reflection questions to help educators examine their own reading practices and better understand what it means to be a reader Teachers will discover how to Increase students fluency and comprehension Teach vocabulary and text structure Prepare reading lessons Assess reading proficiency Teaching Reading to English Language Learners is an ideal primer for educators who may or may not have had experience working with ELLs *Resources in Education* , 1998
