Life and Teaching of the Masters of the Far East (6 Volume Set) Baird Thomas Spalding, 1948-12 2010 Reprint of 1924 Edition In 1924 Spalding published this first and most important volume of Life and Teaching of the Masters of the Far East It describes the travels to India and Tibet of a research party of eleven scientists in 1894 During their trip they claim to have made contact with the Great Masters of the Himalayas immortal beings with whom they lived and studied gaining a fascinating insight into their lives and spiritual message This close contact enabled them to witness many of the spiritual principles evinced by these Great Masters translated into their everyday lives which could be described as miracles Such examples are walking on water or manifesting bread to feed the hungry party These books have remained consistently popular with spiritual seekers those interested in the philosophy of the East and those who enjoy a good story because of their accessible nature and easy to follow format However despite most of the action taking place in India the Great Masters make it clear that the greatest embodiment of the Enlightened state is that of the Christ as personified by Jesus The Masters accept that Buddha represents the Way to Enlightenment but they clearly set forth that Christ IS Enlightenment or a state of consciousness for which we are all seeking the Christ light of every individual therefore the light of every child born into the world

The Masters Speak, Twenty-Seven Dialogues, The Himalayan Journals M.G. Hawking, 2025-08-29 The dialogues presented in this book are transcribed from explorer M G Hawking's journals chronicling his conversations with extraordinary men and women he encountered in a remote region of the Himalayas allowing readers to experience first hand their expressions of the

fundamental knowledge essential principles of consciousness and specific practices that can enable extraordinary perceptive abilities and powers

Reviews What a rare resource Hawking brings together an important anthology from an amazing number of adepts masters with whom he engaged during a five year trip to the Himalayas I took pages of notes highly beneficial for anyone on the path to enlightenment Nothing else like this out there Absolutely mind blowing I am a long time student of the occult and this book s knowledge far surpasses anything I have ever read in over 50 years of reading Made abstract concepts clear Truly life changing for me

Masters Speak is an amazing read the book is riveting From the author The knowledge and techniques presented in this book arise directly from the esoteric teachings of profoundly enlightened individuals If studied with patience and fully integrated into your core belief system these teachings will lay the foundation necessary to enable you to acquire very unique abilities Yet nothing explained in this volume is supernatural or beyond the ability of a properly equipped individual These abilities are not miracles Quite the contrary They do not require any capacities that are not inherent in the human species as a whole if those capacities are properly recognized and developed These discourses are intended for those whose passion for knowledge has instilled an enduring aspiration to see things whole to pursue the deepest understanding of consciousness and our true place and power in the Universe

M G Hawking For untold millenniums this knowledge has been known only to a privileged few revelations long concealed from the world at large As entertaining as it is enlightening this is an incomparable book for anyone on a spiritual path or seeking greater knowledge and personal power
