Schoch,Robert Aquinas McNally,2005-06-02 The Egyptologist acclaimed for re dating the Great Sphinx at Giza sets his sights on one of the true mysteries of antiquity the Great Pyramid of Giza What is the Great Pyramid of Giza Ask that basic question of a traditional Egyptologist and you get the basic traditional answer a fancy tombstone for a self important pharaoh of the Old Kingdom This Egyptologists argue is the sole finding based on the data and the only deduction supported by science By implication anyone who dissents from this point of view is unscientific and woolly minded a believer in magic and ghosts Indeed some of the unconventional ideas about the Great Pyramid do have a spectacularly fabulous ring to them Yet from beneath the obvious terms of this controversy a deeper more significant question arises how is it that the Great Pyramid exercises such a gripping hold on the human psyche adding cryptic grace to the back of the one dollar bill and framing myriad claims of New Age pyramid power In Pyramid

Quest Robert M Schoch and Robert Aquinas McNally use the rigorous intellectual analysis of scientific inquiry to investigate what we know about the Great Pyramid and develop a stunning hypothesis This ancient monument is the strongest proof yet that civilization began thousands of years earlier than is generally thought extending far back into a little known time In tracing that story we come to understand not only the Great Pyramid but also our own origins as civilized beings Who's who Among Authors of Older Nations Alberta Chamberlain Lawrence,1932 Covering the literary activities of living authors and writers of all countries of the world except the United States of America Canada Mexico Alaska Hawaii Newfoundland the Phillipine sic islands the West Indies and Central America **The Teaching of Psychology** Stephen F. Davis,William Buskist,2013-03-07 The Teaching of Psychology is centered around the masterful work of two champions of the teaching of psychology Wilbert J McKeachie and Charles L Brewer in order to recognize their seminal contributions to the teaching of the discipline The book s main goal is to provide comprehensive coverage and analysis of the basic philosophies current issues and the basic skills related to effective teaching in psychology It transcends the typical nuts and bolts type books and includes such topics as teaching at small colleges versus a major university teaching and course portfolios the scholarship of teaching what to expect early in a teaching career and lifelong learning The Teaching of Psychology also features Biographies of Bill McKeachie and Charles L Brewer Fourteen chapters written by leading authorities in the teaching of psychology which provide overviews of the latest psychological research and theories in effective college and university teaching These chapters cover lecturing classroom presence using humor in teaching pedagogy advising teaching critical thinking writing and technology and training graduate students to teach Useful advice to new teachers and seasoned veterans including qualities of master teachers understanding the many facets of working within the academy and teaching with technology Insights into teaching specific courses within the psychology curriculum including the history of psychology biological psychology statistics and research methods learning social psychology personality psychology of women cross cultural psychology industrial organizational psychology psychology of religion and environmental psychology A closing section containing Bill McKeachie s and Charles L Brewer s perspectives into the teaching of psychology and its history highlights and future This book is intended for academic psychologists who teach and or train graduate assistants to teach at the college and university level All royalties from this book will be donated to the Society for the Teaching of Psychology Division 2 of the American Psychological Association which each year sponsors many activities across the country to promote the teaching of psychology
