God for our decisions Only by examining the paths we have taken can we really see where we re at It is only when we look deep within ourselves we discover that as writers singers musicians interior decorators or even truck drivers we all have gifts Having them is not to question rather it is WHAT WE DO WITH THEM that really matters Wherever your passions lie you can erase your doubts and restore your joy Just imagine yourself on a park bench

As Your Song Susan Marie Dickerson, 2016-04-26 Write a song, create reality. Could the songs we write influence the life we are living? As Your Song So Follows Your Life ties together the lyrics and intent of many of the author's original songs with the corresponding experiences that life yielded, all of which were a vibrational match. Illustrating the well-known adage that like attracts like, a secret reveals itself that living a life of one's dreams requires purposeful focus on things wanted as well as a leaning toward the positive. It is a testimony of spiritual unfolding and growth lessons of which were sped along by the death of her young son. A valuable read, especially for artists who feel drawn to put their gift out there for the masses. As Your Song So Follows Your Life demonstrates the creative power we all possess and counsels us to use it wisely. Whether through music, art, or our everyday lives, we have the opportunity to design our lives as we wish, attract experiences accordingly, and reach our dreams. Will you awaken to understand the power of what you create? Through the very songs that epitomize our lives, we infuse harmony or discord to the world around us each day. Wondrously, we have the power, and the knowledge is available, to harness our dreams.

Future Rising Andrew Maynard, 2020-10-27 A scientist offers compelling visions and potential pitfalls of the future in a journey through time space and the human experience. Dr. Tanya Harrison, coauthor of *For All Humankind*. Humanity has gained the ability not only to imagine the future but to design and engineer it. At times entertaining and at others profound, *Future Rising* provides an original perspective on our relationship with the future. As a species, we've become talented architects of our future, yet we often struggle to come to terms with what this means. As innovation and rapidly shifting norms and expectations drive our world at breakneck speed, we sometimes need to find a still, quiet place to pause and think. *Future Rising* creates such a place where we can take advantage of our species' knowledge of world history and the importance of science to piece together a positive future. To create a good future, we must rediscover the past. Our relationship with the future is inextricably intertwined with where we've come from, who we are, and what we aspire to. *Future Rising* starts at the beginning of all things with the Big Bang and traces a pathway along the emergence of intelligent life through what makes humans uniquely capable of imagining and creating different futures. In a series of sixty short reflections, Andrew Maynard, a former physicist and nationally recognized expert in technology and society, will take you on a journey into what the future actually is, how it molds and guides our lives, how we can use the history of the world to change our future. A thoughtful and thought-provoking response to the moment we're in, chronicling how we got here, where we're going, and what role we have in that journey.
