**Women, the Family, and Freedom** Susan G. Bell, Karen M. Offen, 1983 This is the first book in a two part collection of 264 primary source documents from the Enlightenment to 1950 chronicling the public debate that raged in Europe and America over the role of women in Western society The present volume looks at the period from 1750 to 1880 The central issues motherhood women s legal position in the family equality of the sexes the effect on social stability of

women's education and labor extended to women the struggle by men for personal and political liberty. These issues were political, economic and religious dynamite. They exploded in debates of philosophers, political theorists, scientists, novelists and religious and political leaders. This collection emphasizes the debate by juxtaposing prevailing and dissenting points of view at given historical moments: e.g. Madame de Staël vs Rousseau, Eleanor Marx vs Pope Leo XIII, Strindberg vs Ibsen, Simone de Beauvoir vs Margaret Mead. Each section is preceded by a contextual headnote pinpointing the documents' significance. Many of the documents have been translated into English for the first time. Unruly Women of Paris Gay L.

Gullickson, 2018-09-05 In this vividly written and amply illustrated book Gay L. Gullickson analyzes the representations of women who were part of the insurrection known as the Paris Commune. The uprising and its bloody suppression by the French army is still one of the most hotly debated episodes in modern history. Especially controversial was the role played by women whose prominent place among the Communards shocked many commentators and spawned the legend of the *prouleuses*—women who were accused of burning the city during the battle that ended the Commune. In the midst of the turmoil that shook Paris, the media distinguished women for their cruelty and rage. The *Paris Journal*, for example, raved: "Madness seems to possess them; one sees them, their hair down like furies, throwing boiling oil, furniture, paving stones on the soldiers." Gullickson explores the significance of the images created by journalists, memoirists and political commentators and elaborated by latter-day historians and political thinkers. The *prouleuse* is the most notorious figure to emerge from the Commune, but the literature depicts the Communardes in other guises too: the innocent victim, the scandalous orator, the Amazon warrior and the ministering angel, among others. Gullickson argues that these caricatures played an important role in conveying and evoking moral condemnation of the Commune. More important, they reveal the gender conceptualizations that structured limited and assigned meaning to women as political actors for the balance of the nineteenth and well into the twentieth century. The State, the Family and Education (Routledge Revivals) Miriam David, 2015-06-03

In *The State, the Family and Education*, first published in 1980, Miriam David provides an entirely new analysis of the relationship of the State to the family and education. David shows how the State, through its educational policies, regulates family relationships with and within schools. This book provides a welcome analysis of educational policy from a socialist feminist perspective, re-examining the ways in which women as parents, teachers and pupils are involved in the education system. This book will be of interest to students of education.

*Anorexic Bodies* Morag MacSween, 2013-11-26 This book explores the ways in which anorexic women use their eating to control their bodies. It argues that the female body in modern Western culture is understood as open and accessible and female appetite as dangerous and voracious. Anorexia attempts to resist both these constructions in the creation of a closed, desireless body. Since anorexic women resist the power of collective ideologies, their resistance cannot work: the closed body becomes its own prison. **Fit Work for Women** Sandra
