Mate max, 2000 *Revista de educación* nº 38,

The New Dramatists of Mexico 1967-1985 Ronald D. Burgess, 2021-12-14 In 1976 a dozen hopeful young Mexican dramatists most of them studying with Emilio Carballido began staging plays primarily in small out of the way theater and publishing them mostly in university magazines with limited distribution Until now more than twenty years later there has been no comprehensive study devoted either to this original group of writers or to those who followed in the same generation and no central source of information about them or their production Although they continue to produce more plays every year they represent a lost generation Ronald Burgess now offers the first extensive study of this group of playwrights and

their work Included is discussion of over 200 plays by more than 40 writers but the work of nine key playwrights is examined in depth Most of these dramatists concern themselves with the state of Mexico today reacting to current social conditions with depictions ranging from violence to guarded hope to anguished hopelessness Many look to their nation s history and culture for explanations In his illuminating study Burgess places this theatrical generation in the context of contemporary Mexican society and literature employing a wide variety of analytic approaches to highlight essential characteristics of these representative authors Dictionary of Mexican Literature Eladio Cortés,1992-11-24 This volume features approximately 600 entries that represent the major writers literary schools and cultural movements in the history of Mexican literature A collaborative effort by American Mexican and Hispanic scholars the text contains bibliographical biographical and critical material placing each work cited within its cultural and historical framework Intended to enrich the English speaking public s appreciation of the rich diversity of Mexican literature works are selected on the basis of their contribution toward an understanding of this unique artistry The dictionary contains entries keyed by author and works the length of each entry determined by the relative significance of the writer or movement being discussed Each biographical entry identifies the author s literary contribution by including facts about his or her life and works a chronological list of works a supplementary bibliography and when appropriate critical notes Authors are listed alphabetically and cross referenced both within the text and the index to facilitate easy access to information Selected bibliographical entries are also listed alphabetically by author and include both the original title and English translation publisher date and place of publication and number of pages

Censuras y LIJ en el siglo XX (En España y 7 países latinoamericanos) Pedro C. Cerrillo Torremocha,Mª Victoria Sotomayor,2016 La censura de libros y de actividades culturales en los regímenes totalitarios sobre todo los del siglo XX ha sido estudiada desde diversos aspectos ofrece una amplia bibliografía Sin embargo no se ha prestado suficiente atención ni a la censura de libros para el público infantil y juvenil ni a las exclusiones de ciertas lecturas literarias en el ámbito escolar quizá por considerar que tienen menos trascendencia Tras dos capítulos introductorios Literatura y poder y El concepto de censura Las censuras en la LIJ el libro se estructura en dos partes la primera dedicada a Censura y LIJ en la España franquista con atención no solo a la historia de los libros infantiles censurados sino también a las censuras soterradas a las que afectaron a los exiliados tras la Guerra Civil a las traducciones y a la LIJ escrita en otras lenguas del Estado y con dos apartados científicos para la censura de los tebeos e historias y del teatro infantil En la segunda parte se ha dedicado un capítulo a la LIJ censurada en cada uno de los siete países que se han estudiado **Manual de dramaturgia** Doménech, Fernando,2016-05-17 El término Dramaturgia tiene ya carta de naturaleza en los estudios y en la práctica teatral contemporánea Aunque a menudo se utiliza como sinónimo de adaptación de un texto para la representación su sentido es más amplio y engloba toda la serie de decisiones y trabajos previos a la puesta en escena A esta práctica responde en gran medida este Manual Sin embargo la tradición europea ha tendido siempre a primar el texto como la base de todo arte dramático lo que ha

generado una riquísima literatura crítica acerca de cómo se escriben las obras teatrales cuáles son los criterios por los que una obra se puede considerar digna de estimación cuáles son sus elementos fundamentales que engloba la poesía dramática etc Esta tradición de poéticas que han guiado la discusión sobre el arte dramático y han orientado a los escritores al componer sus obras para la escena no ha perdido su vigencia por más que hoy en día no consideremos el texto como la única base del hecho teatral Una parte importante del trabajo dramaturgico sigue siendo la del análisis de los textos dramáticos y en el Manual de Dramaturgia se le ha dado la debida importancia si bien los autores han procurado no quedarse en los estrechos límites de la poética clásica que tan a menudo se ven repetidos en manuales y obras de divulgación y han ampliado el campo de lo dramático a géneros tradicionalmente despreciados como el teatro breve la danza contemporánea el teatro de objetos o el teatro musical así como a las nuevas formas que se han introducido en la dramaturgia contemporánea y al teatro oriental depositario de una riquísima tradición demasiadas veces olvidada en los estudios sobre teatro
