Technics and Creativity, 1971 **Unfinished** Kelly Baum, Andrea Bayer, Sheena Wagstaff, 2016-03-01 This
groundbreaking book explores the evolving concept of unfinishedness as essential to understanding art movements from the
Renaissance to the present day Unfinished features more than 200 works created in a variety of media by artists ranging
from Leonardo Titian Rembrandt Turner and C zanne to Picasso Warhol Twombly Freud Richter and Nauman What unites
these works across centuries and media is that each one displays some aspect of being unfinished Essays and case studies by
major contemporary scholars address this key concept from the perspective of both the creator and the viewer probing the
impact that this long artistic trajectory which can be traced back to the first century has had on modern and contemporary
art The book investigates the degrees to which instances of incompleteness were accidental or intentional experimental or
conceptual Also included are illuminating interviews with contemporary artists including Tuymans Celmins and Marden and
parallel considerations of the unfinished in literature and film The result is a multidisciplinary approach and thought
provoking analysis that provide valuable insight into the making meaning and critical reception of the unfinished in art
