#### **The Home, Nations and Empires, and Ephemeral Exhibition Spaces**

Dominique Bauer,Camilla Murgia,2025-10-01 This book explores ephemeral exhibition spaces between 1750 and 1918 The chapters focus on two related spaces the domestic interior and its imagery and exhibitions and museums that display both national imperial identity and the otherness that lurks beyond a country s borders What is revealed is that the same tension operates in these private and public realms namely that between identification and self projection on the one hand and alienation otherness and objectification on the other In uncovering this the authors show that the self the citizen society and the other are realities that are constantly being asserted defined and objectified This takes place they demonstrate in a ceaseless dynamic of

projection versus alienation and intimacy versus distancing      Textiles and Clothing Along the Silk Roads China National Silk Museum, UNESCO, 2022-10-05      **Art Deco and Modernist Carpets** Susan Day, 2002-10 In 1927 the critic Rene Chavance identified carpet production as the most successful of the decorative arts in achieving the more visionary aims of the times Susan Day's book a work of original scholarship accompanied throughout by illustrations both of the carpets themselves and of contemporary interiors demonstrates that these Art Deco carpets have lost none of their decorative power A significant number of the carpets are shown precisely as they were meant to be seen within the rooms for which they were made The fruits of the remarkable Art Deco efflorescence throughout Europe form the first part of the book In the second the focus turns to the reaction against the artistes decorateurs by the champions of modernism In France the designs of Sonia Delaunay Eileen Gray and Jean Lurcat evoked collage and Cubism the Bauhaus and Scandinavia provided different influences The fashion for abstract and modernist rugs was further stimulated by limited editions of rugs woven from works by such artists as Picasso Klee and Miro while in the USA designers developed a style that was distinctly American This visual feast of appeal not only to carpet collectors and textile specialists but to anyone with an interest in 20th century design ranges from the supremely imaginative achievements of Paul Poiret's unique weaving studio the Ecole Martine to the Scandinavian folk traditions of Marta Maas Fjetterstrom the innovations of Frank Lloyd Wright and Donald Deskey in the USA and Gunta Stolzl's handwoven carpets in Germany The book's invaluable reference section includes detailed information on artists manufacturers and retailers their signatures and monograms and a glossary and bibliography Book Jacket      **Catalogue Mrs. Phoebe A. Hearst Loan Collection** Phoebe Apperson Hearst, San Francisco Art Association, 1917      **Antwerp Royal Museum Annua l2013-2014** Paul Vandebroek, 2016-12-28 At various points over the course of the 20th century the Belgian State and its various ministries and provinces consciously chose to subsidise not only the fine arts but also the applied and decorative arts and in particular the art of weaving tapestry On the one hand orders were placed for World Exhibitions and for Belgian embassies and on the other competitions were held for tapestries to be hung in important locations such as the United Nations and NATO headquarters and the exhibitions that were organized by the various ministries over the years They provided an overview of the ways in which this branch of the arts was changing as well as representative work by the best tapestry designers The exhibitions organized by the provincial authorities give quite a different image There were the highly conventional exhibitions of Brabantine tapestries to promote the craftsmanship of the province and there were the more innovative textile exhibitions Taken as a whole the commissions competitions and exhibitions give a good overview of what was happening in Belgium in the field of tapestry over the period 1945-1980 They also make it clear what image was being projected abroad that of a country with rich traditions master craftsmanship in weaving and in the 1970s some affiliation to the latest developments in European textile art      *Weaving* Christina Martin, 2005-09-01 In all early cultures weaving represented the image of creation In this beautiful book Martin presents the

history folklore and techniques of weaving through various cultures She explains and illustrates the three basic weave structures plain weave twills and satins along with many famous weaving patterns Traditions of dyeing fiber preparation and spinning are introduced along with the rich legacy of myths and legends they have engendered Diagrams illustrate the construction of various looms from the simple backstrap loom to the complex and revolutionary Jacquard loom For anyone who has ever knitted sewn or woven this book is a treasure
