The Old Gringo Carlos Fuentes, 2013-05-14 In *The Old Gringo* Carlos Fuentes brings the Mexico of 1916 uncannily to life This novel is wise book full of toughness and humanity and is without question one of the finest works of modern Latin American fiction One of Fuentes s greatest works the novel tells the story of Ambrose Bierce the American writer soldier and journalist and of his last mysterious days in Mexico living among Pancho Villa s soldiers particularly his encounter with General Tomas Arroyo In the end the incompatibility of the two countries or paradoxically their intimacy claims both men in a novel that is most of all about the tragic history of two cultures in conflict

The Shattered Mirror María Elena de Valdés, 2010-07-05 Popular images of women in Mexico conveyed through literature and more recently film and television were long restricted to either the stereotypically submissive wife and mother or the demonized fallen woman But new representations of women and their roles in Mexican society have shattered the ideological mirrors that reflected these images This book explores this major change in the literary representation of women in Mexico Mar a Elena de Vald s enters into a selective and hard hitting examination of literary representation in its social context and a contestatory engagement of both the literary text and its place in the social reality of Mexico Some of the topics she considers are Carlos Fuentes and the subversion of the social codes for women the poetic ties between Sor Juana In s de la Cruz and Octavio Paz questions of female identity in the writings of Rosario Castellanos Luisa Josefina Hern ndez Mar a Luisa Puga and Elena Poniatowska the Chicana writing of Sandra Cisneros and the postmodern celebration without reprobation of being a woman in Laura Esquivel s *Like Water for Chocolate*

How Myth Became History John Emory Dean, 2016-05-12 The myth of Texas origin often begins at the Alamo This story is based on ideology rather than on truth yet ideology is the foundation for the U S American cultural memory that underwrites official history The Alamo as a narrative of national progress supports the heroic acts that have created the Lone Star State a unified front of U S American liberty in the face of Mexican oppression *How Myth Became History* explores the formation of national

ethnic racial and class identities in the Texas borderlands Examining Mexican Mexican American and Anglo Texan narratives as competing representations of the period spanning the Texas Declaration of Independence to the Mexican Revolution John E Dean traces the creation and development of border subjects and histories Dean uses history historical fiction postcolonial theory and U S Mexico border theory to disrupt official Euro American histories Dean argues that the Texas Mexico borderlands complicate national ethnic and racial differences He makes this clear in his discussion of the Mexican Revolution when many Mexican Americans who saw themselves as Mexicans fought for competing revolutionary factions in Mexico while others who saw themselves as U S Americans tried to distance themselves from Mexico altogether Analyzing literary representations of the border *How Myth Became History* emphasizes the heterogeneity of border communities and foregrounds narratives that have often been occluded such as Mexican Indio histories The border according to Dean still represents a contested geographical entity that destabilizes ethnic and racial groups Border dynamics provide critical insight into the vexed status of the contemporary Texas Mexico divide and point to broader implications for national and transnational identity

The Memory Effect Russell J.A. Kilbourn, Eleanor Ty, 2014-03-25 *The Memory Effect* is a collection of essays on the status of memory individual and collective cultural and transcultural in contemporary literature film and other visual media Contributors look at memory s representation adaptation translation and appropriation as well as its mediation and remediation Memory s irreducibly constructed nature is explored even as its status is reaffirmed as the basis of both individual and collective identity The book begins with an overview of the field with an emphasis on the question of subjectivity Under the section title *Memory Studies Theories Changes and Challenges* these chapters lay the theoretical groundwork for the volume Section 2 *Literature and the Power of Cultural Memory* Memorializing focuses on the relation between literature and cultural memory Section 3 *Recuperating Lives Memory and Life Writing* shifts the focus from literature to autobiography and life writing especially those lives shaped by trauma and forgotten by history Section 4 *Cinematic Remediations Memory and History* examines specific films in an effort to account for cinema s intimate and mutually constitutive relationship with memory and history The final section *Multi Media Interventions Television Video and Collective Memory* considers individual and collective memory in the context of contemporary visual texts at the crossroads of popular and avant garde cultures
