Open Boat is a short story by the American author Stephen Crane 1871-1900. First published in 1897, it was based on Crane's experience of surviving a shipwreck off the Florida coast earlier that year while traveling to Cuba to work as a newspaper correspondent. Crane was stranded at sea for thirty hours when his ship, the SS Commodore, sank after hitting a sandbar. He and three other men were forced to sail ashore in a small boat; one of the men, an oiler named Billie Higgins, drowned after the boat capsized. Crane's personal account of the wreck and survival of men titled "Stephen Crane's Own Story" was first published a few days after his rescue. Crane later adapted his report narratively, and the resulting short story "The Open Boat" was published in Scribner Magazine. The story is told from the point of view of an anonymous correspondent with Crane as the author. Involved in the action, it closely resembles the author's experiences after the shipwreck. A volume titled "The Open Boat and Other Tales of Adventure" was published in the United States in 1898. An edition titled "The Open Boat and Other Stories" was published simultaneously in England.
