Raising Your Kids Right Michelle Ann Abate, 2010-07-14 Dr Seuss's classic character the Lorax has delighted children for decades while passing along a powerful message about environmental responsibility The book's young readers and their parents would likely be surprised by the emergence of a new character Truax a kindly logger created by a longtime employee of the wood products industry who not surprisingly has a far different viewpoint to share Yet the Truax character and the book of the same name is just one example of a growing genre of conservative themed narratives for young readers spawned by the continuing strength of the American political right Highlighting the works of William Bennett Lynne Cheney Bill O'Reilly and others Michelle Ann Abate brings together such diverse fields as cultural studies literary criticism political science childhood studies brand marketing and the cult of celebrity *Raising Your Kids Right* dispels

lingering societal attitudes that narratives for young readers are unworthy of serious political study by examining a variety of texts that offer information ideology and even instructions on how to raise kids right not just figuratively but politically

State of Confusion Bryant Welch,2008-06-10 Finally the answer to the many questions that have been preying on the minds of millions of Americans has arrived Why are Americans so vulnerable to divisive political tactics Why did Americans get dragged into such an unwise war in Iraq Why do fundamentalist religious groups Fox News and right wing radio still play such influential roles in America's political landscape And why are long accepted rational scientific ideas like evolution under siege These questions hold America's future in the balance Ultimately they are questions about the American mind Psychologist attorney Dr Bryant Welch has the answers If America is going to change the mind set that led us to war in Iraq and left us unable to confront our serious national problems this book is vitally important Drawing on his unique experience both as a clinical psychologist and a Washington D C political figure with the American Psychological Association Dr Welch shows how the long term effects of sophisticated new forms of political manipulation have not only led to our debacle in Iraq but are also currently undercutting America's ability to address its very serious problems In the 1944 movie Gaslight a husband drives his wife to the brink of insanity by playing games with her sense of reality Just as in the movie America's most recent political

gaslighters such as George W Bush Karl Rove Rush Limbaugh Ann Coulter and many religious leaders have generated and exploited confusion in the minds of countless Americans Gaslighters prey on their victim s vulnerability to paranoia sexual perplexity and envy to undermine the mind s ability to function rationally Welch examines why millions of Americans in response to such assaults subconsciously and dangerously create their own simplistic reality even if it is completely different from the more complex reality of the world Most important State of Confusion explains how and why Americans must act now to fight back against this harmful manipulation before it s too late Dr Welch s exploration of the American mind is both fascinating and frightening and State of Confusion is a must read for everyone who cares about the future of this great country

At War with Metaphor Erin Steuter,Deborah Wills,2009-07-15 When photographs documenting the torture and humiliation of prisoners at Abu Ghraib came to the attention of a horrified public national and international voices were raised in shock asking how this happened At War with Metaphor offers an answer arguing that the abuses of Abu Ghraib were part of a systemic continuum of dehumanization This continuum has its roots in our public discussions of the war on terror and the metaphors through which they are repeatedly framed Arguing earnestly and incisively that these metaphors if left unexamined bind us into a cycle of violence that will only be intensified by a responsive violence of metaphor Steuter and Wills examine compelling examples of the images of animal insect and disease that inform shape and limit our understanding of the war on terror Tying these images to historical and contemporary uses of propaganda through a readable accessible analysis of media filters At War with Metaphor vividly explores how news media including political cartoons and talk radio are enmeshed in these damaging dehumanizing metaphors Analyzing media through the lenses of race and Orientalism it invites us to hold our media and ourselves accountable for the choices we make in talking war and making enemies
