The Origins Of The Cultural Revolution 1 Contradictions Among The People 1956 1957:

The Cambridge History of China: Volume 15, The People's Republic, Part 2, Revolutions Within the Chinese Revolution, 1966-1982 Roderick MacFarquhar, John K. Fairbank, Denis Crispin Twitchett, 1991-11-29 In continuing the post revolution study started in Volume 14 Volume 15 considers the developments in Mao's thoughts and how they related to China's government The most comprehensive account of this turbulent period in Chinese history The Origins of the Cultural Revolution Roderick MacFarquhar, 1974 Why did Mao Zedong launch the cultural revolution that almost destroyed all that he had worked so long and so hard to create In his highly praised study now a classic Roderick MacFarquhar seeks to answer that question by examining the politics economics culture and international relations of China from the mid 1950s to the mid 1960s The Origins of the Cultural Revolution Roderick MacFarquhar, 1999-11 This is the final volume in a trilogy that examines the politics personalities economics culture and international relations of China from the mid 1950s to the mid 1960s It seeks to answer the central question Why did Chairman Mao Zedong launch the Cultural Revolution 1966-76 which plunged China into chaos and almost destroyed its Communist Party The Coming of the Cataclysm starts with the great famine of the early 1960s which resulted in tens of millions of deaths and set in train a series of emergency measures that increasingly divided Mao from his comrades in arms His anger that they were prepared to adopt capitalist methods to rescue the country was sharpened by his belief that Moscow had actually gone capitalist and sold out to the imperialist West From 1961 to 1966 the period covered by this volume the increasingly urgent question for Mao was how to prevent a similar revolutionary degeneration in China The Cultural Revolution was his answer Drawing upon new evidence from Party documents personal interviews books and journals MacFarquhar details the growing rift between Mao and his colleagues as they attempted to cope with domestic privation and an increasingly hostile international environment until the Chairman finally decided to smash the unity of the Yan'an Round Table by unleashing society against the party state The Cultural Revolution Frank Dikötter, 2017-06-06 The concluding volume following Mao's Great Famine and The Tragedy of Liberation in Frank Dikötter's award winning trilogy chronicling the Communist revolution in China After the economic disaster of the Great Leap Forward that claimed tens of millions of lives from 1958-1962 an aging Mao Zedong launched an ambitious scheme to shore up his reputation and eliminate those he viewed as a threat to his legacy The Cultural Revolution's goal was to purge the country of bourgeois capitalistic elements he claimed were threatening genuine communist ideology Young students formed the Red Guards vowing to defend the Chairman to the death but soon rival factions started fighting each other in the streets with semiautomatic weapons in the name of revolutionary purity As the country descended into chaos the military intervened turning China into a garrison state marked by bloody purges that crushed as many as one in fifty people The Cultural Revolution A People's History 1962-1976 draws for the first time on hundreds of previously classified party documents from secret police reports to unexpurgated versions of leadership speeches After the army itself fell victim to the

Cultural Revolution ordinary people used the political chaos to resurrect the market and hollow out the party's ideology By showing how economic reform from below was an unintended consequence of a decade of violent purges and entrenched fear The Cultural Revolution casts China's most tumultuous era in a wholly new light *Historical Dictionary of the Chinese Cultural Revolution* Guo Jian, Yongyi Song, Yuan Zhou, 2015-07-23 As the world's only English language historical dictionary of the Chinese Cultural Revolution 1966-1976 this book offers a comprehensive coverage of major historical figures events political terms and other matters relevant to this unique period of modern Chinese history that had profound influence on social and cultural movements of the world in the 1960s and 1970s This second edition of *Historical Dictionary of the Chinese Cultural Revolution* covers its history through a chronology an introductory essay glossary and an extensive bibliography The dictionary section has over 400 cross-referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about this important period in Chinese history *The Origins Of The Great Leap Forward* Jean-luc Domenach, Mark Selden, 2019-06-26 The first major study of the Great Leap Forward this seminal volume has now been translated into English for a wider audience Like no other work it suggests compelling political and social answers to questions that have long plagued scholars How could a party with such a successful rural base launch a movement so divorced from reality especially in the countryside Why was the movement pressed to the point of social chaos and economic collapse giving rise to arguably the greatest famine in human history Utilizing a wealth of primary material Jean Luc Domenach focuses on the central China province of Henan which emerged as a national model of the Great Leap and was one of the most devastated by its failure The author's documentary sources enable him to illuminate the development of provincial and local political life as well as to gauge popular reactions to the dictates of the center Domenach presents a lucid analysis of the setbacks in agriculture in 1956 and 1957 the rise of economic corruption and the launch of the CCP rectification campaign in 1957 Despite the enormous impact of the Great Leap on Chinese politics and economics in the decades that followed it has proven immensely difficult to research Domenach's contribution thus stands out as an original and important work on the period **The History of the People's Republic of China, 1949-1976** Julia Strauss, 2007-06-11 Examines the People's Republic of China between 1949 and 1976 from an explicitly historical perspective *Collateral Damage* Nicholas Khoo, 2011 Although the Chinese and the Vietnamese were Cold War allies in wars against the French and the Americans their alliance collapsed and they ultimately fought a war against each other in 1979 More than thirty years later the fundamental cause of the alliance's termination remains contested among historians international relations theorists and Asian studies specialists Nicholas Khoo brings fresh perspective to this debate Using Chinese language materials released since the end of the Cold War Khoo revises existing explanations for the termination of China's alliance with Vietnam arguing that Vietnamese cooperation with China's Cold War adversary the Soviet Union was the necessary and sufficient cause for the alliance's termination He finds

alternative explanations to be less persuasive These emphasize nonmaterial causes such as ideology and culture or reference issues within the Sino Vietnamese relationship such as land and border disputes Vietnam s treatment of its ethnic Chinese minority and Vietnam s attempt to establish a sphere of influence over Cambodia and Laos Khoo also adds to the debate over the relevance of realist theory in interpreting China s international behavior during both the Cold War and post Cold War eras While others see China as a social state driven by nonmaterial processes Khoo makes the case for viewing China as a quintessential neorealist state From this perspective the focus of neorealist theory on security threats from materially stronger powers explains China s foreign policy not only toward the Soviet Union but also in relation to its Vietnamese allies

Revolution and Terror Graeme Gill,2024 This book is a study of the relationship between revolution and terror Graeme Gill uses a detailed analysis of the French Russian and Chinese revolutions to show that in order to understand that relationship it is necessary to distinguish between different types of terror revolutionary transformational and inverted

Mao Alexander V. Pantsov,Steven I. Levine,2013-10-29 Originally published in a different version in 2007 in Russian by Molodaia Gvardiia as Mao Tzedun Title page verso **The Emergence of Global Maoism** Matthew Galway,2022-03-15 The Emergence of Global Maoism examines the spread of Mao Zedong s writings ideology and institutions when they traveled outside of China Matthew Galway links Chinese Communist Party efforts to globalize Maoism to the dialectical engagement of exported Maoism by Cambodian Maoist intellectuals How do ideas manifest outside of their place of origin Galway analyzes how universal ideological systems became localized both in Mao s indigenization of Marxism Leninism and in the Communist Party of Kampuchea s indigenization of Maoism into its own revolutionary ideology By examining the intellectual journeys of CPK leaders who during their studies in Paris in the 1950s became progressive activist intellectuals and full fledged Communists he shows that they responded to political and socioeconomic crises by speaking back to Maoism adapting it through practice without abandoning its universality Among Mao s greatest achievements the Sinification of Marxism enabled the CCP to canonize Mao s thought and export it to a progressive audience of international intellectuals These intellectuals would come to embrace the ideology as they set a course for social change The Emergence of Global Maoism illuminates the process through which China moved its goal from class revolution to a larger anticolonial project that sought to cast out European and American imperialism from Asia **Politics in China** William A. Joseph,2019-04-25

Science and Dissent in Post-Mao China H. Lyman Miller,1996 When in 1989 Chinese astrophysicist Fang Lizhi sought asylum for months in the U S Embassy in Beijing later escaping to the West worldwide attention focused on the plight of

liberal intellectuals in China In *Science and Dissent in Post Mao China* H Lyman Miller examines the scientific community in China and prominent members such as Fang and physicist and historian of science Xu Liangying Drawing on Chinese academic journals newspapers interviews and correspondence with Chinese scientists he considers the evolution of China's science policy and its impact on China's scientific community He illuminates the professional and humanistic values that impelled scientific intellectuals on their course toward open liberal political dissent It is ironic that scientific dissidence in China arose in opposition to a regime supportive of and initially supported by scientists In the late 1970s scientists were called upon to help implement reforms orchestrated by Deng Xiaoping's regime which attached a high priority to science and technology The regime worked to rebuild China's civilian science community and sought to enhance the standing of scientists while at the same time it continued to oppose political pluralism and suppress dissidence The political philosophy of revolutionary China has taught generations of scientists that explanation of the entire natural world from subatomic particles to galaxies falls under the jurisdiction of natural dialectics a branch of Marxism Leninism Escalating debates in the 1980s questioned the relationship of Marxism to science and led some to positions of open political dissent At issue were the autonomy of China's scientific community and the conduct of science as well as the validity and jurisdiction of Marxist Leninist philosophy and hence the fundamental legitimacy of the political system itself Miller concludes that the emergence of a renewed liberal voice in China in the 1980s was in significant part an extension into politics of what some scientists believed to be the norms of healthy science scientific dissidence was an unintended but natural consequence of the Deng regime's reforms This thoughtful study of science as a powerful belief system and as a source of political and social values in contemporary China will appeal to a diverse audience including readers interested in Chinese politics and society comparative politics communist regimes the political sociology of science and the history of ideas

Organizing China Harry Harding, 1981-06-01 Since the establishment of the People s Republic in 1949 Chinese Communist leaders have constructed an administrative apparatus that has exercised broader and tighter control over Chinese society than any previous government in the country s history This is a history of the development of Chinese organizational policy a topic of constant concern and often strident debate from 1949 to the death of Mao Tse tung in 1976 The author argues that Chinese organizational policy has been controversial because of the complexity of administrative problems the effects of policy changes on the distribution of power and status and the philosophical dilemma of whether the efficiency of modern bureaucracy outweighs its social and political costs He also shows how extreme approaches such as demands during the Cultural Revolution that bureaucracy be destroyed altogether or proposals during the 1950s that the bureaucracy be rationalized have been repeatedly rejected in favor of a policy more in keeping with much of Chinese tradition to recruit officials on the basis of their political views subject them to ideological indoctrination and rely on mass campaigns to implement Party policy
