*The H.G. Wells Scrapbook*, 1978      *The H. G. Wells Scrapbook* Peter Haining, 1978      **The H.G. Wells Scrapbook** Jack Williamson, 1978      **H.G. Wells on Film** Don G. Smith, 2015-06-08 One of the most influential thinkers of his era H G Wells is primarily known for his science fiction writings that looked ahead in time to teach and warn These novels and stories inspired many filmmakers to bring his visions if often greatly altered or misfocused to life on screen He himself wrote screenplays and closely supervised the production of some of his work This book is a study of every theatrically released film from 1909 to 1997 that is based even loosely on the writings of H G Wells including *The Time Machine* *The Island of Dr Moreau* *The Invisible Man* *The War of the Worlds* *The First Men in the Moon* *The Food of the Gods* and *The Empire of the Ants* to name a few For each film the author discusses the circumstances surrounding its creation its plot how it compares with the literary work its production and marketing and its strengths and weaknesses based on aesthetic qualities      *H.G. Wells and the Twenty-First Century* Bill Cooke, 2023-09-15 H G Wells has been branded as a novelist who betrayed his vocation But Wells saw himself as what we would today call a public intellectual How credible is this claim And what happens when we look at him in this way So typecast has Wells s reputation become that neither of these questions has been previously asked but when we look at Wells as a thinker we find a whole new quality to his later works which have invariably been dismissed by literary scholars as of low quality or even not worth reading In particular Wells s prescience as a prophet of our current environmental problems stands out for example he foresaw anthropogenic climate change as early as 1931 Popular conceptions of Wells as racist imperialist and eugenicist are also challenged What emerges is a new perspective on a significant public intellectual and pioneering prophet of the twenty first century      *H.G. Wells* W. Warren Wagar, 2004-09-22 A look inside one of the greatest minds of the 20th century      *H.G. Wells: Another Kind of Life* Michael Sherborne, 2013-11-01 An unlikely lothario one of the most successful writers of his time a figure at the heart of the age s political and artistic debates H G Wells life is a great story in its own right When H G Wells left school in 1880 at 13 he seemed destined for obscurity yet he defied expectations becoming one of the most famous writers in the world He wrote classic science fiction tales such as *The Time Machine* *The Invisible Man* and *The War of the Worlds* reinvented the Dickensian novel in *Kipps* and *The History of Mr Polly* pioneered postmodernism in experimental fiction and harangued his contemporaries in polemics which included two bestselling histories of the world He brought equal energy to his outrageously promiscuous love life a series of affairs embraced distinguished authors such as Dorothy Richardson and Rebecca West the gun toting travel writer Odette Keun and Russian spy Moura Budberg Until his death in 1946 Wells had artistic and ideological confrontations with everyone from Henry James to George Orwell from Churchill to Stalin He remains a controversial figure attacked by some as a philistine sexist and racist praised by others as a great writer a prophet of globalization and a pioneer of human rights Setting the record straight this authoritative biography is the first full scale

account to include material from the long suppressed skeleton correspondence with his mistresses and illegitimate daughter
