The Oral Tradition In The South:

The Oral Tradition in the South Waldo W. Braden, 1999-03-01 Over the years the phrase southern oratory has become laden with myth its mere invocation conjures up powerful images of grandiloquent antebellum patriarchs enthusiastic New South hucksters and raving wild eyed demagogue politicians In these essays Waldo Braden strips away the myths to expose how the South's orators achieved their rhetorical effects and manipulated their audiences The Oral Tradition in the South begins with two essays that trace the roots of the South's particular identification with oratory In The Emergence of the Concept of Southern Oratory 1850-1950 Braden suggests that it was through the influence of southern scholars that southern oratory gained its renown The second essay The Oral Tradition in the Old South focuses on antebellum times to reveal the several factors that combined to make the region a fertile ground for oratory Braden further explores the antebellum oratorical tradition in The 1860 Election Campaign in Western Tennessee analyzing speeches made in Memphis by such national figures as William L Yancey Andrew Johnson and Stephen A Douglas and revealing the nature of political canvassing in that era Shifting his discussion to the years that followed the Civil War Braden examines in Myths in a Rhetorical Context how such speakers as General John B Gordon and Henry Grady worked to restore the shattered self esteem of the region by spinning myths of the Old South and the Lost Cause and by proclaiming the hopeful era of the New South The fifth essay The Rhetoric of Exploitation probes the rhetorical strategies of the demagogue politicians of the twentieth century strategies such as plain folks appeals and race baiting In the final essay The Rhetoric of a Closed Society Braden analyzes the movement opposing racial integration in Mississippi Showing how the White Citizens Council Governor Ross Barnett and other leaders manipulated the public to make the state a closed society from 1954 to 1964 Although he takes pains to establish the historical context in each of these essays Braden's emphasis as a rhetorical critic is always on the speeches themselves He pays close attention to the kinds of appeals found in the words of the speeches and to the individual speaker's use of images and phrases to evoke particular myths But Braden looks beyond the texts of the speeches to take into account the full context of the event What the reader finds in the printed version of the text he explains might be only a small part of the myth a tiny hint of what grinds inside frustrated listeners Sometimes the trigger for the myth does not even appear in the printed version because face to face the listeners and the speaker feeling a oneness evoke the myth without verbal expression To account for this nonverbal dimension of oratory these essays assess the impact of the location and atmosphere of the gathering the audience's expectations and the speaker's use of ritual symbolic gestures and props During the nearly forty years of his career Waldo Braden has been a pioneer in the serious study of oratory A landmark work The Oral Tradition in the South is the capstone to a distinguished career a comprehensive and authoritative study of the subject Braden has so innovatively researched

The Companion to Southern Literature Joseph M. Flora, Lucinda Hardwick

MacKethan, 2001-11-01. Selected as an Outstanding Academic Title by Choice. Selected as an Outstanding Reference Source by the Reference and User Services Association of the American Library Association. There are many anthologies of southern literature but this is the first companion. Neither a survey of masterpieces nor a biographical sourcebook, *The Companion to Southern Literature* treats every conceivable topic found in southern writing from the pre-Columbian era to the present, referencing specific works of all periods and genres. Top scholars in their fields offer original definitions and examples of the concepts they know best, identifying the themes, burning issues, historical personalities, beloved icons and common or uncommon stereotypes that have shaped the most significant regional literature in memory. Read the copious offerings straight through in alphabetical order: Ancestor Worship, Blue Collar Literature, Caves or skip randomly at whim: Guilt, The Grotesque, William Jefferson Clinton. Whatever approach you take, *The Companion's* authority, scope and variety in tone and interpretation will prove a boon and a delight. Explored here are literary embodiments of the Old South, New South, Solid South, Savage South, Lazy South and Sahara of the Bozart. As up to date as grit lit, K Mart fiction and postmodernism and as old fashioned as Puritanism, mules and the tall tale, these five hundred entries span a reach from Lady to Lesbian Literature. The volume includes an overview of every southern state's belletristic heritage while making it clear that the southern mind extends beyond geographical boundaries to form an essential component of the American psyche. The South's lavishly rich literature provides the best means of understanding the region's deepest nature and *The Companion to Southern Literature* will be an invaluable tool for those who take on that exciting challenge.
