The Origins of Responsibility François Raffoul, 2010-04-13 François Raffoul approaches the concept of responsibility in a manner that is distinct from its traditional interpretation as accountability of the willful subject Exploring responsibility in the works of Nietzsche Sartre Levinas Heidegger and Derrida Raffoul identifies decisive moments in the development of the concept retrieves its origins and explores new reflections on it For Raffoul responsibility is less about a sovereign subject establishing a sphere of power and control than about exposure to an event that does not come from us and yet calls to us These original and thoughtful

investigations of the post metaphysical senses of responsibility chart new directions for ethics in the continental tradition
