Snowmobiles and Snowmobiling James J. Tuite,1969 **Snowmobile** Jules Older,2012-02-01 In 1922 when Joseph Armand Bombardier was fifteen years old he built his first snow vehicle He had always loved to tinker with motors and make things go and he dreamed of building a vehicle that could go over snow His first attempt using a Model T Ford engine and a wooden propeller worked well To Joseph Armand s mind anyhow Not so much his father who made him take the contraption apart Over the years Joseph Armand dreamed of becoming a great mechanic and inventing machines But when his young son died of a fever because it was impossible to get to the hospital over the snow covered roads Joseph Armand applied his single minded determination to building a vehicle that could go over snow It took years but he accomplished his goal His invention changed the way people in snow country lived Inaccessible roads could now be travelled taking patients to hospitals doctors and priests to the needy children to school and even mail to residents **Make It Go in the Snow** Larry Jorgensen,2024-08 Through the years the challenge of powered transportation in the snow has been met with ideas from explorers creative inventors and small companies all with new ideas often unique and sometimes successful The name snowmobile was trademarked in 1917 but there were snow travel ideas before that date and certainly thousands more since Winter explorers and trailblazers sought to replace their dogsleds and snowshoes as they explored difficult locations including remote locations on the north and south poles Early inventors of snow vehicles often scavenged parts from many mechanical devices trying many power and propulsion methods from 2 and 4 stroke engines to air propulsion and even a snow biting screw auger concept The snow travel ideas from some early inventors were simply designed to solve their own needs others came from entrepreneurs who believed folks would be impressed and want to buy their creations Some of their ideas evolved into companies such as Polaris Arctic Cat and Ski Doo which prospered and now can trace their roots back to that first snowmobile idea Make It Go In The Snow provides a fun look at the history of a few of the many thousands of snow travel ideas and those enthusiasts who gave them birth Captured and recorded are a wide variety of snowmobile ideas without offering judgment on any individual venture Join me as I pay tribute to all those ideas past present and future But keep watching because more snow excitement is waiting to be created From Modern History Press Snowmobiling Kenneth Zahensky,Michael A.
