G. E. Aylmer, 1974 The Challenge of Revolution Vladimir Mau, Irina Starodubrovskaya, 2001-02-22 This volume provides an challenging and controversial explanation of the recent events in Russia It examines the causes processes and consequences of Russia's recent political development Drawing on and criticizing the existing literature the book also shows how the recent Russian experience casts light on general theories of revolution and comparative political developments The transformation in Russia is usually compared with transformations in other post communist countries The authors argue that the Russian transformation should be explained in the logic of the great revolutions of the past such as the English Civil War the French Revolution and the Bolshevik Revolution The difficulties and inconsistency of Russian reforms are usually explained as a result of mistakes made by reformers This book argues however that these problems should be considered as a natural consequence of the weak state In revolution the weakness of state power is inevitable resulting from social fragmentation property rights transformation changes in the interests of different social groups Hence the authors argue that most of the transitional problems in Russia were unavoidable The authors go on to argue that revolutions are usually considered as rapid change made through violence However the spontaneous character of change in the situation of a weak state is a much more important feature of any revolution than violence The book contains unique interviews with four leaders of the Russian transformation Mikhail Gorbachev Alexander Yakovlev Yegor Gaidar and Gennadii Burbulis as well as the personal experience of the authors who were deeply involved in the practical process of Russian transformation History, Pastoral and Desire James Morrill Swan, 1974 The Routledge Companion to the Stuart Age, 1603-1714 John
