Covering every important aspect of PA including tactics, strategy, mechanical aspects of technique, physical aspects of performance such as work rate, coach behaviour and referee behaviour, this is an essential reference for any serious student, researcher or practitioner working in sport performance analysis, sport coaching or high performance sport.

It brings together leading and innovative thinkers and practitioners in coaching pedagogy and aims to stimulate reflection by the reader on their own coaching practice. Reviewing recent theoretical developments and current research in GBC, the book provides in-depth examples on how research can be applied in practice, including the use of digital video games, immersive scenario-based coaching narratives, and the Game Sense approach as play with purpose.
