The Emotional Rollercoaster of Language Teaching Christina

Gkonou, Jean-Marc Dewaele, Jim King, 2020-05-19 This book focuses on the emotional complexity of language teaching and how the diverse emotions that teachers experience while teaching are shaped and function. The book is based on the premise that teaching is not just about the transmission of academic knowledge but also about inspiring students, building rapport with them, creating relationships based on empathy and trust, being patient and most importantly, controlling one's own emotions and being able to influence students' emotions in a positive way. The book covers a range of emotion-related topics on both positive and negative emotions which are relevant to language teaching, including emotional labour, burnout, emotion regulation, resilience, emotional intelligence, and wellbeing among others. These topics are studied within a wide range of contexts such as teacher education programmes, tertiary education, CLIL, and action research settings in primary and secondary schools across different countries. The book will appeal to any student, researcher, teacher, or policymaker who is interested in research on the psychological aspects of foreign language teaching.

Compelling

Stories for English Language Learners Janice Bland, 2022-10-06 An International Research Society for Children's Literature (IRSCL) Honour Book for 2023. This book is a comprehensive and thorough introduction to children's and young adult literature in English language education. Reading is promoted as central to language education in order to experience perspectives from around the world, and the book demonstrates the many opportunities for teaching with compelling story, encouraging an active and engaged community of second language readers through challenging picturebooks, motivating graphic novels, dynamic plays, enchanting verse novels, and compelling young adult fiction. Using many examples of literary texts that are well suited to the primary or secondary classroom, the book focuses on the advantages of deep reading and the vital importance of in-depth learning. In-depth learning is an approach that involves the students as motivated participants working collaboratively and with empathy while preparing for and confronting the challenges of the 21st century. Illustrating the approach with a Deep Reading Framework based in research and theory, Janice Bland guides the reader to discover and learn how to make use of literary texts in a way that challenges students to become involved in interculturality, creativity, and critical literacy. Throughout the book, the emphasis is on an approach that puts the reader and language learner in the centre, not a study of literature but a study of how readers learn through compelling story.
