Hawisher, Anna O. Soter, 1990-07-05 This book recognizes and embraces the complexities of modern English teaching It presents English teachers and teacher educators with a critical view of current professional issues and concerns in the belief that these groups need and want to participate in curricular and professional reform movements that affect them and their students The book examines such issues as the interconnectedness of the study of language literature and composition curricular problems in language instruction in teacher education the relationship between our traditional notions of literature study and our emerging view of literacy in the contemporary information age and the ways in which current theory and research can be translated into innovative designs for the teaching of written composition On Literacy and Its Teaching is a powerful response to the current challenge for innovation and change in English teacher education With its broad scope it provides a balanced overview and timely analysis of the field of English Education Theorizing Composition Mary Kennedy, 1998-06-25 The last 25 years have witnessed extraordinary growth in the academic specialization variously described as composition studies or rhetoric and composition What was noticeable about the field in its infancy was a preoccupation with practice a lack of emphasis on theory and an exclusive reliance on the writing process As its disciplinary status has grown the field has become far more theoretical Composition studies has expanded its focus reconceptualized the writing process and embraced a wide range of critical perspectives The result of this change is that terms such as poststructuralism social construction gender and genre which were largely unknown in 1965 now dominate discussion This reference book is a guide to the multiplicity of theories that have emerged to form the disciplinary foundation of composition studies The volume consists of 66 entries each of which is written by an expert contributor and focuses on a particular theory or group of theories While the entries show how various individuals have contributed to theoretical movements very few concentrate on the work of a single theorist Each entry first provides a critical summary of a particular theory or group of theories including key elements basic concepts and claims and information about seminal or particularly influential works It then reviews the theory s critical reception in composition studies and discusses its significance in the field The bibliography at the end of each entry lists primary texts and major scholarship related to the theory and provides additional suggestions for further reading The volume closes with a selected bibliography of important works *Composing Social Identity in Written Language* Donald L. Rubin, 2013-09-13 This volume constitutes a unique contribution to the literature on literacy and culture in several respects It links together aspects of social variation that have not often been thus juxtaposed ethnicity nationality gender and participant role relations The unifying theme of this collection of papers is that all of these factors are

aspects of writers identities identities which are simultaneously expressed and constructed in text The topic of social identity and writing can be approached from a variety of scholarly avenues including humanistic critical and historical perspectives The papers in the present volume make reference to and contribute to such humanistic perspectives however this book lies squarely within the tradition of social science It draws primarily upon the disciplines of linguistics discourse analysis anthropology social and cognitive psychology and education studies The constituent topics of social identity style and writing themselves lie at the intersections of several related fields of scholarship Writing remains of peak interest to educators from many fields and is still a hot topic The instructional ramifications of the particular issues addressed in this volume are of vital concern to educational systems adjusting to the realities of our multicultural society This publication therefore should attract a substantial and diverse readership of scholars educators and policymakers affiliated with many fields including applied linguistics composition and rhetoric communication studies dialect studies discourse analysis English composition English language arts education ethnic studies language behavior literacy sociolinguistics stylistics women s studies and writing research and instruction *Teaching in Progress* Josephine Koster Tarvers, Cindy Moore, 2008 **The Handbook of**
