Pillars of Early Literacy

The National Reading Panel identified five key concepts at the core of every effective reading instruction program: **Phonemic Awareness**, **Phonics**, **Fluency**, **Vocabulary**, and **Comprehension**. Since the panel's report was released in 2000, these concepts have become known as the "five pillars" of early literacy and reading instruction.

Books in Print Supplement ,2002 Literacy S. N. Colamery, 2000 Literacy is defined as the ability to read and write One would expect that as the world enters the 21st century of the Third Millennium we wouldn't even need to discuss such a topic But alas that is not the case Even in the United States the only so called superpower left standing at the moment the rate of illiteracy is astonishing Some cynics say that there is no cause for alarm since the rich elite class needs millions of workers for low paid jobs and the less educated the better Others say that the lack of literacy is the fault of the schools and that if we double the pay of the teachers they will somehow suddenly be interested in teaching Still others say that with television and VCRs everywhere who needs to read and write anyway In this book we have collected citations sorted and indexed them in a way which we hope will be useful for those seeking further information on this topic At the beginning we offer excerpts from some of the fundamental reports summarising the dismal situation *Instructional-Design Theories and Models, Volume III* Charles M. Reigeluth, Alison A. Carr-Chellman, 2009-05-07 Instructional Design Theories and Models Volume III Building a Common Knowledge Base is perhaps best described by its new subtitle Whereas Volume II sought to comprehensively review the proliferating theories and models of instruction of the 1980 s and 1990 s Volume III takes on an even more daunting task starting to build a common knowledge base that underlies and supports the vast array of instructional theories models and strategies that constitute the field of Instructional Design Unit I describes the need for a common knowledge base offers some universal principles of instruction and addresses the need for variation and detailed guidance when implementing the universal principles Unit II describes how the universal principles apply to some major approaches to instruction such as direct instruction or problem based instruction Unit III describes how to apply the universal principles to some major types of learning such as understandings and skills Unit IV provides a deeper understanding of instructional theory using the structural layers of a house as its metaphor and discusses instructional theory in the broader context of paradigm change in education **Computers in Education** ,1983 *Computers in Education: Report of a research conference* ,1983
