Rules in School Kathryn Brady, Mary Beth Forton, Deborah Porter, 2011 Join the thousands of teachers in schools nationwide who have used this positive approach to discipline to establish calm, safe classrooms in which students can do their best learning. The approach to discipline presented in this book helps children develop self control, understand how positive behavior looks and sounds and come to value such behavior. With many examples from their own classrooms, three experienced teachers offer practical techniques to help you establish clear expectations for behavior from day one, teach students how to articulate their learning goals, create classroom rules that connect to those goals, use techniques such as Interactive Modeling to teach positive behavior, reinforce positive behavior with supportive teacher language and quickly stop misbehavior and restore positive behavior so that children retain their dignity and continue learning.
