Bridging Theory and Practice in Children's Spirituality Zondervan, 2020-04-21 Bridging Theory and Practice in Children's Spirituality explores the different contexts methods and situations that influence and foster a child's spirituality and faith development Through a blend of theoretical understanding held in tension with practical application it equips those who are in or being prepared for the varied contexts where children are spiritually formed It represents a broad range of Christian expression writing from a Christ centered perspective that furthers the conversation about the next steps in children's spirituality and faith development Moving beyond the basics of faith nurture and what makes for effective ministry this resource deepens our understanding of the practices in children's lives by bringing together the best of theory and practice and includes contributions from Dr Scottie May Wheaton College Dr Kevin Lawson Biola University Dr Erik Carter Vanderbilt University John Roberto Vibrant Faith Dr Dana Kennamer Pemberton Abilene Christian University Dr Shirley Morgenthaller Concordia University Chicago Dr Holly Catterton Allen Lipscomb University Dr Robert Keeley Calvin College and Calvin Seminary Dr Mimi Larson Wheaton College Lacy Finn Borgo Renovar Institute and others Pastors professors seminary students and children's ministry leaders and practitioners all believe that nurturing a child's spiritual development is important Yet often they are unsure about which current trends

should be embraced This book will help equip these people with the grounding needed to evaluate trends and with specific suggestions for moving forward With short accessibly written chapters it helps pastors and leaders stay up to date with current trends and is an excellent resource for teaching in college and seminary classrooms *The Praeger Handbook of Urban Education* Philip M. Anderson,Kecia Hayes,Joe Kincheloe,Karel Rose,2006-03-30 Maintaining that urban teaching and learning is characterized by many contradictions this work proposes that there is a wide range of social cultural psychological and pedagogical knowledge urban educators must possess in order to engage in effective and transformative practice It is necessary for those teaching in urban schools to be scholar practitioners rather than bureaucrats who can only follow rather than analyze understand and create Ten major sections cover the myriad issues of urban education as it exists today *Men and Masculinities* Daniel Tillapaugh,Brian L. McGowan,2023-07-03 There continues to be much concern about the retention and persistence of men in college particularly Black Latinx and Native American men In addition queer and trans men also have found institutions to be problematic spaces For those who do persist we know that men are overrepresented in student conduct cases and engage in risky behaviors around alcohol drug use and sexual relationships Additionally we know that college men have historically avoided engaging in help seeking behaviors for their academic and personal success This book addresses the ways that theory can be put into practice for powerful transformative learning to support college men and their development This book synthesizes the research of the past three decades on college men to inform college student educators on the developmental needs of college men and illuminates how young men are socialized prior to their arrival to campus but perhaps more importantly how the collegiate environment becomes a training ground for the socialization of masculinities by students their peers and their environments Beyond that it sets out how practitioners can help young men understand why and how they have been socialized around their gender identity but also what their gender identity and sense of masculinity means for their future selves The book highlights programs and services designed to have college men engage with and dialogue around issues of hegemonic toxic or unhealthy aspects of masculinity These promising practices can offer college men opportunities to understand their power privilege and identity in ways that can be affirming and healthier leading to more life giving chances This is all the more important in the context of an ever evolving society where traditionally held norms and expectations around gender particularly masculinities are shifting This book equips student affairs staff faculty and administrators to better support college men s development It offers readers insights ideas and models for adapting and developing programs services and initiatives that may meaningfully meet the needs of specific student populations while recognizing that there is no one size fits all approach to this work *Handbook of Research on Teacher Education* Marilyn Cochran-Smith,Sharon Feiman-Nemser,John McIntyre,Kelly E. Demers,2008-02-19 Co Published by Routledge Taylor Francis Group and the Association of Teacher Educators The Handbook of Research on Teacher Education was initiated to ferment change in education based on solid evidence The publication of the First Edition was a

signal event in 1990 While the preparation of educators was then and continues to be the topic of substantial discussion there did not exist a codification of the best that was known at the time about teacher education Reflecting the needs of educators today the Third Edition takes a new approach to achieving the same purpose Beyond simply conceptualizing the broad landscape of teacher education and providing comprehensive reviews of the latest research for major domains of practice this edition stimulates a broad conversation about foundational issues brings multiple perspectives to bear provides new specificity to topics that have been undifferentiated in the past includes diverse voices in the conversation The Editors with an Advisory Board identified nine foundational issues and translated them into a set of focal questions What s the Point The Purposes of Teacher Education What Should Teachers Know Teacher Capacities Knowledge Beliefs Skills and Commitments Where Should Teachers Be Taught Settings and Roles in Teacher Education Who Teaches Who Should Teach Teacher Recruitment Selection and Retention Does Difference Make a Difference Diversity and Teacher Education How Do People Learn to Teach Who s in Charge Authority in Teacher Education How Do We Know What We Know Research and Teacher Education What Good is Teacher Education The Place of Teacher Education in Teachers Education The Association of Teacher Educators ATE is an individual membership organization devoted solely to the improvement of teacher education both for school based and post secondary teacher educators For more information on our organization and publications please visit www.ate1.org
