GOSSET,2024 Student-centered Physical Education Timothy K. Smith,Nicholas G. Cestaro,1998 Student Centered Physical Education presents over 100 fun physical activities that not only promote student fitness and skill development but also build the foundation for a physically active life The authors modular approach allows teachers to mix and match activities in order to achieve specific goals creating multiple opportunities within each class period for students to succeed Authors Timothy Smith and Nicholas Cestaro who together have more than 50 years of

teaching experience have developed a student centered approach to physical education to replace the outdated subject driven approach By focusing on the needs of the preadolescent student rather than on sports or calisthenics this proven program challenges exclusivity boredom and gender bias Their strategies and activities make physical education relevant to your students and motivate them to participate in physical activity both in the gym and after school Part I A Student Centered Modular Approach helps you develop and organize your classes You ll learn how to assemble modular lesson plans and how to increase their effectiveness using the teaching strategies presented You ll also find a chapter on authentic assessment which discusses the use of rubrics portfolios and portfolio cards Next Part II Teaching Modules provides you with easy to follow step by step directions for more than 100 fitness related activities including warm ups skill development activities team oriented activities and individual and paired activities Each activity is ready to be inserted into the modular lesson format presented in Part I In addition you ll find 10 detailed health fitness modules one for each month of the school year that will help you present and reinforce key lifestyle concepts in addition to the physical components of physical education

Teaching Middle School Physical Education Bonnie S. Mohnsen,1997 Grade level 4 5 6 7 e i t The Cost of Going Big: Class Size in Middle School Physical Education Jason Gatti,2018 Class size is a perennial issue that has been debated and researched for years While there has been a significant amount of research conducted on the impact that class size plays on the teaching process much of this research has focused on core academic subjects California education code exempts Physical Education PE from student cap limits which has resulted in a disparity in class size between academic core subjects and PE Despite this there is a distinct lack of scholarship concerning class size and its impact on the teaching process in middle school PE This research attempts to fill this gap by furthering our understanding of the impacts that class size has on the physical educator A qualitative research design was used to collect data from a sample of seven teachers currently teaching middle school PE across three different school sites in the San Francisco Bay Area The results of the study indicate that class size has a negative impact on the instructional practices of middle school PE teachers In particular teacher student interaction modification of activities and class instruction were seen to be affected by larger class sizes Along with that teacher apathy was seen to occur when teachers become overwhelmed with the physical and emotional cost of teaching large classes in middle school PE Physical educators need more support from their district in the form of professional development workshops with appropriate follow up as well as an increase in curriculum meeting time to ensure that educators receive the support they need to remain motivated towards the teaching process
