Judaism through the single most mentioned character in the Quran Moses There is one human mentioned in the Quran more than any other Moses Why is it that the Jewish prophet dominates the Islamic scripture Because he is the role model for Muhammad Islam's own prophet Because Islam just like Christianity is deeply intertwined with Judaism although surprisingly little attention has been given to this fascinating connection between the two religions Author and journalist Mustafa Akyol takes readers on a theological and historical walk through that much neglected side of the Abrahamic triangle the Judeo Islamic tradition Using Moses presence in the Quran as a jumping off point Akyol explores the first historical encounter between Muslims and Jews the creative symbiosis and mutual enrichment that occurred between the two belief systems in medieval times and the modern emergence development and perception of the two religions At a time of bitter conflict in the Middle East The Islamic Moses dives into the older deeper and often unexpectedly brighter story of Jews and Muslims Readers of any background will be surprised by the common historical and theological ground that exists between the two religions and will come away with a better understanding of both **Britain Through Muslim Eyes** Claire

Reclaiming the Past Jonathan M. Hall,2021-12-15
Reclaiming the Past examines the post antique history of Argos and how the city s archaeological remains have been perceived and experienced since the late eighteenth century by both local residents and foreign visitors to the Greek Peloponnese The first western visitors to Argos a city continuously inhabited for six millennia invariably expected to encounter landscapes described in classical texts yet what they found fell far short of those expectations At the same time local meanings attributed to ancient sites reflected an understanding of the past at odds with the supposed expertise of classically educated outsiders Jonathan M Hall details how new views of Argos emerged after the Greek War of Independence 1821 1830 with the adoption of national narratives connecting the newly independent kingdom to its ancient Hellenic past With rising local antiquarianism at the end of the nineteenth century new tensions surfaced between conserving the city s archaeological heritage and promoting urban development By carefully assessing the competing knowledge claims between insiders and outsiders over Argos s rich history Reclaiming the Past addresses pressing questions about who owns the past
