The Courage to Learn Marcia Eames-Sheavly, Paul Michalec, Catherine M. Wehlburg, 2023-07-03 It takes courage to engage in the kind of deep transformational learning that so many people need in their lives and this book is designed to help find and nurture that courage in learners including those that are engaged in facilitating the courageous learning of others Inspired by Parker Palmer's classic book *The Courage to Teach* the authors have carefully examined the learning side of the teaching and learning relationship and this book shares the resulting wealth of knowledge and experience with readers This book is informed by Palmer's observation that the conversations in teaching can be organized around four questions what how why and who In this book the authors center learning instead of teaching as they ask What is the content of learning How do we learn Why is it necessary what motivates us And who is the self that learns The authors have engaged in conversation with adult learners across the lifespan representing different ages social economic levels and approaches to learning Drawing on these discussions their own experiences and the scholarly literature they weave a tapestry with threads of learning and teaching story and analysis that serve as warp and weft The authors pay tribute to the learner's journey in the fullness of the process and name the distinct forms of courage that learning takes In the concluding chapter the authors explore the implications for educational practice and offer guidance for any educator wishing to bring a *Courage to Learn* conversation to their community

Interpersonal Regulation of Learning and Motivation Simone Volet, Marja Vauras, 2013 *Interpersonal Regulation of Learning and Motivation* is the first book in the field to focus on major methodological advances in research on interpersonal regulation of learning and motivation Interest in developing ways of capturing the dynamics of interpersonal regulation in real life learning interactions is growing rapidly Understanding these dynamics is particularly timely given the increased use of collaborative learning activities in schools and university settings as well as through face to face and computer supported collaborative learning CSCL environments While groups and collections of individuals in social interaction are expected to bring their own motivations and goals to the learning situations it is also assumed that these are further shaped through interaction as the group activity evolves Research methodology publications in the field of learning regulation and motivation are still dominated by a focus on the individual The study of collaborative learning at both conceptual and methodological level has not incorporated the significance of social regulatory processes of learning and motivation This is a new development in the field and one covered by this book The book contains numerous illustrations of innovative Methodological approaches to study and interpret the dynamics of interpersonal regulation Data sources and data representations to capture scaffolded instruction Theory based analytic methods to investigate interactions in real life collaborative learning Coding systems and social software tools for gathering and analysing interactive data *Interpersonal Regulation of Learning and Motivation* brings together the work of scholars who

have been studying interpersonal regulation of learning and motivation at the boundaries of the individual and the social and who have made original methodological contributions to the study of interactive learning environments In combination their work provides a range of distinctive and original conceptual and methodological contributions to this under examined and vital field of research making this an essential read for any researcher or student interested in collaborative learning and motivation

Observational Research in U.S. Classrooms Hersholt C. Waxman, Roland G.

Tharp, R. Soleste Hilberg, 2004-01-26 The present national reform agendas stress that rigorous content and high expectations be accessible to all students including students from groups whose achievement has traditionally lagged behind that of the majority culture students Improving the achievement in US schools important for both social and economic stability will require that instruction be responsive to our nation s increasingly diverse student population This book includes theoretical frameworks as well as substantive research findings and provides examples of recently developed classroom observation instruments based on research of effective teaching practices for culturally and linguistically diverse students Each chapter represents a new aspect of classroom observation research that will assist educators in their endeavors to improve US schools

Real-life Dilemmas in Moral Education Vishalache Balakrishnan, 2011 The purpose of this book is to contribute to

contemporary debates about alternative ways of teaching Moral Education in Malaysia by including the voice of students Moral Education in the Malaysian setting is both complex and compulsory This book explores alternatives to the current somewhat dated approach It seeks to discover what young adolescents describe as moral dilemmas how they approach them

and what they find useful in resolving these moral problems Motivating Students to Learn Jere E. Brophy, 2010-05-26
Written specifically for teachers this book offers a wealth of research based principles for motivating students to learn Its focus on motivational principles rather than motivation theorists or theories leads naturally into discussion of specific classroom strategies Throughout the book these principles and strategies are tied to the realities of contemporary schools and classrooms The author employs an eclectic approach to motivation that shows how to effectively integrate the use of extrinsic and intrinsic strategies Guidelines are provided for adapting motivational principles to group and individual differences and for doing repair work with students who have become discouraged or disaffected learners Understanding Primary Education Penelope Harnett, 2007-12-17
Understanding Primary Education will help trainees and newly qualified teachers reflect on the professional decisions they need to make within their planning and classroom practice The authors analyse key issues and policies within contemporary education through reference to research and pedagogical practice They encourage readers to reflect on policy and practice and support them in articulating their own beliefs and values A broad perspective of the curriculum is outlined with a focus on what curriculum breadth and balance looks like in practice Readers are encouraged to consider questions such as What are the purposes of education What values are important in a pluralist society and what values might we share In what ways can children be encouraged to be active participants within their communities *Home-School Connections in a Multicultural Society* Maria Luiza Dantas, Patrick C. Manyak, 2011-02-09
Educators everywhere confront critical issues related to families schooling and teaching in diverse settings Directly addressing this reality Home School Connections in a Multicultural Society shows pre service and practicing teachers how to recognize and build on the rich resources for enhancing school learning that exist within culturally and linguistically diverse families Combining engaging cases and relevant key concepts with thought provoking pedagogical features this valuable resource for educators at all levels Provides detailed portraits of diverse families that highlight their unique cultural practices related to schooling and the challenges that their children face in school settings Introduces key sociocultural and ethnographic concepts in ways that are both accessible and challenging and applies these concepts as lenses through which to examine the portraits Shows how teachers and researchers have worked with diverse families to build positive relationships and develop learning activities that incorporate children s unique experiences and resources Disrupting deficit assumptions about the experiences and knowledge that culturally and linguistically diverse children acquire in their homes and communities this book engages readers in grappling deeply and personally with the chapters meanings and implications and in envisioning their own practical ways to learn from and with families and children
