Television Sitcom Brett Mills, 2005-11-17 Despite its global reach longstanding popularity and immense profitability sitcom has been repeatedly neglected in theoretical work on television and media This book demonstrates that this lack needs to be sorely addressed by dragging analysis of sitcom up to date with a wealth of contemporary examples a range of new approaches to the genre and examination of the roles sitcom and comedy play within society The book takes as its starting point the variety of ways in which sitcom has traditionally been explored A chapter on genre examines the history and development of sitcom and the institutional structures which produce it There is also analysis of differences between sitcoms produced in a range of countries and what happens when a programme gets sold abroad and remade A chapter on representation explores the debates about the ways in which sitcom chooses who to make jokes about and why and whether this matters And a chapter on performance argues that this is a vital and underexplored aspect of sitcom's funniness and interrogates the ways in which comic actors make their performance funny With specific case studies on Will and Grace The Office and The Cosby Show as well as analysis of a broad range of contemporary and historical examples throughout this book will be of interest to students of sitcom and comedy as well as those of television and popular culture

Teachers, Teaching, and Media ,2019-06-24 Popular representations of teachers and teaching are easy to take for granted precisely because they are so accessible and pervasive Our lives are intertextual in the way lived experiences overlap with the stories of others presented to us through mass media It is this set of connected narratives that we bring into classrooms and into discussions of educational policy In this day and time with public education under siege by forces eager to deprofessionalize teaching and transfer public funds to benefit private enterprises we ignore the dominant discourse about education and the patterns of representation that typify educator characters at our peril This edited volume offers a fresh take on educator characters in popular culture and also includes important essays about media texts that have not been addressed adequately in the literature previously The 15 chapters cover diverse forms from literary classics to iconic teacher movies to popular television to rock n roll Topics explored include pedagogy through the lenses of gender sexuality race disability politics narrative archetypes curriculum teaching strategies and liberatory praxis The various perspectives represented in this volume come from scholars and practitioners of education at all levels of schooling This book is especially timely in an era when public education in the United States is under assault from conservative political forces and undervalued by the general public Contributors are Steve Benton Naeemah Clark Kristy Liles Crawley Elizabeth Currin Mary M Dalton Jill Ewing Flynn Chad E Harris Gary Kenton Mark A Lewis Ian Parker Renga Stephanie Schroeder Roslin Smith Jeff Spanke and Andrew Wirth

The Female Teacher on Television Andrew L. Grunzke,Rebecca Z.
