**The Cutting Edge** Mark A. Lorell, Hugh P. Levaux, Elizabeth Giddens, Jennifer Gross, Erik Moller, 1998-10-20 The proposition that innovation is critical in the cost effective design and development of successful military aircraft is still subject to some debate RAND research indicates that innovation is promoted by intense competition among three or more industry competitors Given the critical policy importance of this issue in the current environment of drastic consolidation of the aerospace defense industry the authors here examine the history of the major prime contractors in developing jet fighters since World War II They make use of an extensive RAND database that includes nearly all jet fighters fighter attack aircraft and bombers developed and flown by U S industry since 1945 as well as all related prototypes modifications upgrades etc The report concludes that 1 experience matters because of the tendency to specialize and thus to develop system specific expertise 2 yet the most dramatic innovations and breakthroughs came from secondary or marginal players trying to compete with the industry leaders and 3 dedicated military R D conducted or directly funded by the U S government has been critical in the development of new higher performance fighters and bombers

F-15 Eagle at War Tyson Rininger, 2009-01-15

The F 15A entered service in 1972 as the first dedicated USAF air superiority fighter since the F 86 Sabre. More than three decades and myriad models and variants later, the F 15 is still the U S Air Force's premiere air superiority weapon, a veteran of U S conflicts as recent as Operation Desert Storm and presently serving in the air forces of U S allies around the world. F 15 Eagle at War, featuring the spectacular aerial photography of author Tyson V Rininger, follows the design, manufacture, and performance of the F 15 from its first appearance through its service in various Cold War and contemporary conflicts. The book profiles each model and upgrade in technology up to the F 15C, D, and E models that served in the Persian Gulf, where they claimed 36 of 39 Air Force victories in air-to-air combat. It is a fitting and thoroughly fascinating tribute to this celebrated aircraft and icon of the U S Air Force.
