**Exploring the New Exodus in John** Paul S. Coxon, 2015-03-09 The theme of the New Exodus NE in John's Gospel has been largely unexplored in recent scholarship Now however by careful intertextual exegesis of John 5:10 Paul Coxon has compellingly argued that not only is the NE key to interpreting the Fourth Gospel but also to unlocking the mysteries of the Johannine puzzle itself Anyone who is interested in searching the riches of this marvelous Gospel will want to explore the NE in John in these pages Oh, That You Would Rend the Heavens and Come Down! Abraham Sung-Ho Oh, 2015-02-26

Historical critical scholars have often thought that writing a coherent theology of Isaiah 56-66 is impossible because it contains such historically and ideologically diverse materials A canonical approach to the chapters is however open to considering Third Isaiah as a complex but coherent theological unity Leaning on this approach Abraham Oh constructs a theology of Isaiah 56-66 Arguing that the theology of Third Isaiah has eschatology both prophetic and apocalyptic at its core he identifies four major themes and explores their significance through four key texts 56:1-8 59:15b-21 60:1-22 65:13-25 The covenant concept 56:1-8 forms a framework for the eschatology in these chapters People are invited to walk in the covenant which is worked out as eschatological salvation The coming of YHWH as the Divine Warrior initiates the eschatological era 59:15b-21 and bringing judgment restores the covenant As the Temple city paradise 60:1-22 into which the nations flow the glorified Zion is the eschatological fulfilment of the covenant Zion and Servant traditions The New Heavens and Earth 65:13-25 is a return to the primordial paradise where the natural world is restored as the problem of sin is resolved ?????

*Text in Context* Andrew David Hastings Mayes, 2000-09-07 The scholarly study of the Old Testament is now marked by a rich diversity of approaches and concerns In the last two decades an interest in the text and the implications for its interpretation is no longer the preserve of a single scholarly community while the reconstruction of the history of the people from whom it derived has been transformed by new methods This new book published under the auspices of the Society for Old Testament Study reflects these new approaches and developments and has a particular concentration on literary and historical study Thus it not only clearly recognizes the diversity now inherent in Old Testament study but also welcomes the integration into its field of the wide range of approaches available in current literary and historical investigation The study of

the biblical text and how it is received and interpreted by its various readerships has a certain logical priority over the study of its historical background and authorship Yet an ongoing investigation of issues relating to the latter cannot await definitive conclusions on the former So essays on the text and its reception discuss primary issues which arise in Old Testament study while those on background and authorship reflect the continued vitality of and the fresh perspective possible in more traditional scholarly concerns
