Poetry & Displacement Stan Smith, 2007-11-01 The paradigmatic figure of twentieth century history is the displaced person a concept which emerged from the demographic migrations deportations and genocidal purges that accompanied two world wars the destruction and construction of nation states and the restructuring of the global order which they occasioned These processes almost inevitably fostered a poetry of exile and expatriation intimately bound up with the experience of modernity and the culture of modernism culminating in the postcolonial era with the globalisation of displacement as the determining condition of postmodernity In this timely new volume renowned poetry critic Stan Smith examines a number of poets Plath Larkin Heaney Walcott Middleton Fisher Duffy through the lens of displacement

From Burke and Wordsworth to the Modern Sublime in Chinese Literature Yi Zheng, 2010 This book is a historical textual study about transformations of the aesthetics of the sublime the literary and aesthetic quality of greatness under duress from early English Romanticism to the New Poetry Movement in twentieth century China Zheng sets up the former and the latter as distinct but historically analogous moments and argues that both the European Romantic reinvention of the sublime and its later Chinese transformation represent cultural movements built on the excessive and capacious nature of the sublime to counter their shared sense of historical crisis The author further postulates through critical analysis several works that these aesthetic practices of modernity suggest a deliberate historical hyperbolization of literary agency Such an agency is in turn constructed imaginatively and affectively as a means to redress different cultures traumatic encounter with modernity The volume will be of interest to scholars including undergraduate and graduate students of Romanticism philosophy history English literature Chinese literature comparative literature and comparative cultural studies

The Oxford Handbook of Contemporary British and Irish Poetry Peter Robinson, 2013-09-26 The Oxford Handbook of Contemporary British and Irish Poetry offers thirty eight chapters of ground breaking research that form a collaborative guide to the many groupings and movements the locations and styles as well as concerns aesthetic political cultural and ethical that have helped shape contemporary poetry in Britain and Ireland The book's introduction offers an anthropological participant observer approach to its variously conflicted subjects while exploring the limits and openness of the contemporary as a shifting and never wholly

knowable category The five ensuing sections explore a history of the period's poetic movements its engagement with form technique and the other arts its association with particular locations and places its connection with and difference from poetry in other parts of the world and its circling around such ethical issues as whether poetry can perform actions in the world can atone redress or repair and how its significance is inseparable from acts of evaluation in both poets and readers Though the book is not structured to feature chapters on authors thought to be canonical on the principle that contemporary writers are by definition not yet canonical the volume contains commentary on many prominent poets as well as finding space for its contributors' enthusiasms for numerous less familiar figures It has been organized to be read from cover to cover as an ever deepening exploration of a complex field to be read in one or more of its five thematically structured sections or indeed to be read by picking out single chapters or discussions of poets that particularly interest its individual readers

activism but this collection showcases the breadth of the subjects he addressed in his sixty years of writing expressed with a rigorous aesthetic sensibility in a style that incorporates diverse influences including modernism and surrealism Don Gordon is great Meridel LeSueur wrote because he shows the vigorous and wondrous strength of the people With this complete collection of his poems readers can at last experience the full range of this vigorous and challenging writer **Scribners Monthly** Josiah Gilbert Holland, Richard Watson Gilder, 1875 Modern Review , 1915 Hyam Plutzik and the Mosaic of Time Victoria Aarons, Holli G.
