Border Crossing in Greater China Jenn-hwan Wang, 2014-07-25 China's transformation from a poor and underdeveloped country into a global market power has profoundly altered its socioeconomic power relations with the other countries in the Greater China region namely Taiwan and Hong Kong Indeed this economic shift has resulted in the massive flow of capital and people from Taiwan as well as Hong Kong to China to seek business opportunities and new lifestyles These flows have in turn completely transformed longstanding borderlines in the region This book examines the transformation of Taiwan and Hong Kong's socioeconomic relationships with China as their economies have become more deeply integrated into Greater China Across three key sections it explores the impact of increasing social interaction and the shrinking of existing borderlines to ask whether these changes will bring about a convergence of identity among the people involved Production examines how investments from Taiwan and Hong Kong to China have transformed production networks Community explores the impact of cross boundary mobility and the integration of migrants into Chinese communities and finally Identity engages with what is one of the most important issues in contemporary Taiwanese society Border Crossing in Greater China contributes not only to theoretical debates on border crossing issues but also provides valuable insights on the practical concerns regarding social and political integration and tensions in the region As such it will be of great interest to students and scholars of Taiwan studies Chinese studies Chinese society and Chinese economics *Public Law in East Asia*

Managing Public Services Ahmed Shafiqul Huque, Grace Lee, 2018-01-12 This title was first published in 2000 The management of public services is becoming an increasingly difficult task Demands are increasing while funds appear to be decreasing but quality of service must remain high New services are required demands have to be faced activities don't always go according to plan and problems emerge in unexpected places and at unusual times and public managers are expected to deal with these deviations from their regular work patterns While some activities are concrete in nature and can be seen such as medical care and education others are obscured from public view With governments emphasizing areas that produce visible and quantifiable results they often neglect the intangible services that must also be provided to the public Poor performance in these areas can contribute to major crisis in public organizations This volume examines four case studies in the context of the changing political and social environment of the new Hong Kong Special Administrative Region of the People's Republic of China The use of these cases from the public sector in Hong Kong will hopefully help readers to understand the difficulties faced by modern governments in providing basic services to the public

Poverty in the Midst of Affluence Leo F. Goodstadt, 2014-12-01 Hong Kong is among the richest cities in the world Yet over the past 15 years living conditions for the average family have deteriorated despite a robust economy ample budget surpluses and record labour productivity Successive governments have been reluctant to invest in services for the elderly the disabled the long term sick and the poor while education has become more elitist The political system has helped to entrench a mistaken consensus that social spending is a threat to financial stability and economic prosperity In this trenchant attack on government mismanagement Leo Goodstadt traces how officials have created a new poverty in Hong Kong and argues that their misguided policies are both a legacy of the colonial era and a deliberate choice by modern governments and not the result of economic crises This provocative book will be essential reading for anyone wishing to understand why poverty returned to Hong Kong in this century The book has been thoroughly revised and updated for this new paperback edition Leo Goodstadt has identified the New Poor as those made vulnerable through diminishing access to essential services and opportunities The culprits are misguided policies and the callous and uncaring decisions of those in power This compelling critique carries weight and demands a response Christine Fang Former Chief Executive of The Hong Kong Council of Social Service This is a critical reflection on Hong Kong's path of social development and a most discerning analysis of the Third World mentality espoused by the government and the business community in the area of social welfare Lui Tai lok Chair Professor of Hong Kong Studies The Hong Kong Institute of Education Welfare spending was like pouring sand into the sea to reclaim land thought one Chief Executive Governments restrained social spending based on that skewed view This book is meticulously researched and painfully insightful It is a masterly chronicle of Hong Kong's social welfare policy Anna Wu Non Official Member of the
