**The Parable of the Hand and the Glove** Allen Smithson, 2012-03-21 The Parable of the Hand and the Glove A Spiritual Awakening is the story of a beautiful peaceful forgiving divine hand that had deep gratitude love and compassion for everyone The hand was happy with others and circumstances just as they were It had great energy which it used to bless everyone while interacting enthusiastically with other hands without negative judgment The hands communications were always uplifting Then the hand noticed that the other hands had gloves on all of the time When the hand was wearing a glove no one ever saw what was happening inside the glove It became increasingly difficult to distinguish between the hand and the glove Soon the hand forgot that all the gloves had hands inside and it began thinking it was a glove This hand could instantly put on a glove for just about any situation The glove loved being right even more than it liked being at peace It would do anything to get nicer possessions greater security higher status and more attention As a glove the hand was certain that happiness was just around the next corner But the glow from the attention and the new acquisition didn't last long at all and that was where the trouble began If the definition of classic literature is gaining new benefit every time you re read it The Parable of The Hand and The Glove is destined to become a classic
