The Hand of the Interpreter G. F. Mitrano, Eric Jarosinski, 2009 This collection of essays by scholars and artists of different disciplines and from different countries is designed to navigate the labyrinth of contemporary aesthetic ideologies with the aim of reassessing how we read both the way in which texts touch us and we them Theory has transformed texts into mute interlocutors exposed to infinite indeterminacy While the response to this sense of silence that undermines meaning is often informed by a nostalgia for older notions of close reading the essays in this volume work towards a re evaluation of key subjects such as reader writer and text The contributors engage with topics such as digital books popular culture alternative ways of book making visual verbal collaborations and thematic explorations of the hand in literature

Leone Ebreo, 2009-05-09 First published in Rome in 1535 Leone Ebreo's Dialogues of Love is one of the most important texts of the European Renaissance. Well known in the Italian academies of the sixteenth century, its popularity quickly spread throughout Europe with numerous reprintings and translations into French, Latin, Spanish, and Hebrew. It attracted a diverse audience that included noblemen, courtesans, artists, poets, intellectuals, and philosophers. More than just a bestseller, the work exerted a deep influence over the centuries on figures as diverse as Giordano Bruno, John Donne, Miguel de Cervantes, and Baruch Spinoza. Leone's Dialogues consists of three conversations: On Love and Desire, On the Universality of Love, and On the Origin of Love, that take place over a period of three subsequent days. They are organized in a dialogic format much like a theatrical representation of a conversation between a man, Philo, who plays the role of the lover and teacher, and a woman, Sophia, the beloved and pupil. The discussion covers a wide range of topics that have as their common denominator the idea of Love. Through the dialogue, the author explores many different points of view and complex philosophical ideas grounded in a distinctly Jewish tradition and drawing on Neoplatonic philosophical structures and Arabic sources. The work offers a useful compendium of classical and contemporary thought yet was not incompatible with Christian doctrine. Despite the unfinished state and somewhat controversial enigmatic nature of Ebreo's famous text, it remains one of the most significant and influential works in the history of Western thought. This new expertly translated and annotated English edition takes into account the latest scholarship and provides an invaluable resource for today's readers.

What triumphs and tragedies shaped the Eridani Light Horse and its traditions? What drove them to become a force to be reckoned with, an elite mercenary unit with one of the longest histories and the deepest traditions in the Inner Sphere? Witness the unit's origins in the Star League and follow their evolution all the way through the Succession Wars and the Clan Invasion to their downfall in the Dark Age and their resurrection in the uncertain future of the Clan era. Part Four: The Hand That Feeds by Randall N. Bills. During the Third Succession War, the Eridani Light Horse undertakes a recon in force to the planet Benet for their new employer, House Davion. But when a Draconis Combine ambush threatens the entire operation, it is up to a group of brave Light Horsemen MechWarriors to cover the retreat, no matter the cost.
