Russian Music at Home and Abroad Richard Taruskin, 2016-09-06 This new collection views Russian music through the Greek triad of the Good the True and the Beautiful to investigate how the idea of nation embeds itself in the public discourse about music and other arts with results at times invigorating at times corrupting In our divided post Cold War and now post 9 11 world Russian music formerly a quiet corner on the margins of musicology has become a site of noisy contention Richard Taruskin assesses the political and cultural stakes that attach to it in the era of Pussy Riot and renewed international tensions before turning to individual cases from the nineteenth century to the present Much of the volume is devoted to the resolutely cosmopolitan but inveterately Russian Igor Stravinsky one of the major forces in the music of the twentieth century and subject of particular interest to composers and music theorists all over the world Taruskin here revisits him for the first time since the 1990s when everything changed for Russia and its cultural products Other essays are devoted to the cultural and social policies of the Soviet Union and their effect on the music produced there as those policies swung away from Communist internationalism to traditional Russian nationalism to the musicians of the Russian postrevolutionary diaspora and to the tension between the compelling artistic quality of works such as Stravinsky's *Sacre du Printemps* or Prokofiev's *Zdravitsa* and the antihumanistic or totalitarian messages they convey *Russian Music at Home and Abroad* addresses these concerns in a personal and critical way characteristically demonstrating Taruskin's authority and ability to bring living history out of the shadows

The Music of Pavel Haas Martin Čurda, 2020-06-03 The Czech composer Pavel Haas 1899-1944 is commonly positioned in the history of twentieth century music as a representative of Leo Janáček's compositional school and as one of the Jewish composers imprisoned by the Nazis in the concentration camp of Theresienstadt However the nature of Janáček's influence remains largely unexplained and the focus on the context of the Holocaust tends to yield a one-sided view of Haas's oeuvre The existing scholarship offers limited insight into Haas's compositional idiom and does not sufficiently explain the composer's position with respect to broader aesthetic trends and artistic networks in inter-war Czechoslovakia and beyond This book is the first attempt to provide a comprehensive albeit necessarily selective discussion of Haas's music since the publication of Lubomír Peduzzi's life and work monograph in 1993 It provides the reader with an enhanced understanding of Haas's music through analytical and hermeneutical interpretation as well as cultural and aesthetic contextualisation and thus reveals the rich nuances of Haas's multi-faceted work which have not been sufficiently recognised so far
