Rua, 2012-06-27 Chicago is home to the third largest concentration of Puerto Ricans in the United States but scholarship on the city rarely accounts for their presence This book is part of an effort to

include Puerto Ricans in Chicago's history. It traces Puerto Ricans' construction of identity in a narrative that begins in 1945 when a small group of University of Puerto Rico graduates earned scholarships to attend the University of Chicago and a private employment agency recruited Puerto Rican domestics and foundry workers. They arrived from an island colony where they had held U.S. citizenship and where most thought of themselves as white. But in Chicago, Puerto Ricans were considered colored and their citizenship was second class. They seemed to share few of the rights other Chicagoans took for granted. In her analysis of the following six decades during which Chicago witnessed urban renewal, loss of neighborhoods, emergence of multiracial coalitions, waves of protest movements, and everyday commemorations of death and life, it explores the ways in which Puerto Ricans have negotiated their identity as Puerto Ricans, Latinos, and U.S. citizens. Through a variety of sources including oral history, interviews, ethnographic observation, archival research, and textual criticism, *A Grounded Identity* attempts to redress this oversight of traditional scholarship on Chicago by presenting not only Puerto Ricans' reconstitution from colonial subjects to second class citizens but also by examining the implications of this political reality on the ways in which Puerto Ricans have been racially imagined and positioned in comparison to blacks, whites, and Mexicans over time.

Story and Sustainability Barbara Eckstein, James A. Throgmorton, 2003-05-23 *Story and Sustainability* explores the role of story in planning theory and practice with the goal of creating U.S. cities able to balance competing claims for economic growth, environmental health, and social justice. In the book, urban practitioners and scholars from fields as diverse as American studies, English, geography, history, planning, and criminal justice reflect critically on the traditional exclusionary power of storytelling and on its potential to facilitate the transformations of imagination, theory, and practice necessary to create sustainable, democratic American cities. The book begins with an editor's introduction identifying story, sustainable U.S. cities, and democracy as the three key themes. Part I advances and refines these concepts, connects them to contemporary U.S. urban planning, and provides tools that can be used when reading and interpreting the texts in part II. Part II exemplifies, amplifies, and modifies the key themes and arguments through the presentation of eight texts: theoretical and experiential, academic and nonacademic, expository and narrative, and familiar and unfamiliar. The combined focus on story and urban sustainability makes this book a unique contribution to planning literature.

Anderson,2010-06-24 Author Keith LeMar Anderson creates a different kind of private detective for a different kind of reader A Black Soul Rises is more than a murder mystery Its the story of Booker Tee a former college football player turned P I Rapid thoughts invade Bookers mind Oftentimes he reflects back to the happiest years of his life his years playing football to make the bad thoughts go away When Carver Universitys star football player is murdered Booker Tee and his heavy fisted sidekick Biggie set out to find the murderer At the same time Booker must find a way to rid himself of the rapid thoughts crowding his mind To do so he finds himself enlisting the help of Dr Rigsbury a therapist who turns out has his own closet of skeletons **The Sermon without End** Ronald J. Allen,Prof O. Wesley Allen JR.,2015-10-20 A New Model for Post

Apologetic Preaching in a Pluralistic World The relationship between preaching and the public sphere has long been debated Three different theological approaches tend to dominate the discussion In different ways these approaches take into account the movement from the modern mindset of the mid to late 20th century to the emerging postmodern worldview In The Sermon without End authors Allen Allen thoughtfully offer a fourth option one that in their view has not received much attention but which offers a distinct and especially helpful perspective It is a new and dynamic conversational model reaching beyond the earlier work of Tillich and Tracy In this homiletical framework conversation takes place in multiple directions between the text or tradition and the world today It is preaching in conversation not just toward but with voices from the public sphere The book provides a solid foundation for understanding this post apologetic approach but it importantly goes on to offer practical real pulpit guidance for implementation in a preaching ministry It is a book for both scholars and practicing preachers who wish to reach people in meaningful and significant ways and in ways that make sense for today This book deserves to be widely applauded It provides a post apologetic lens to illuminate the history of various modern homiletical discourses even as it envisions a postmodern one I strongly recommend this book for homileticians preachers and lay people alike Duse Lee Boston University School of Theology Reviewed in Homiletic Truth Be Told... The Vampires of Africa Herb Cunningham, 2013-04 More than ten thousand years ago a race called the Bitalo conquered the continent of Africa They were something like vampires something like African vampires There is a quite a bit of sunshine in Africa Do you know what that means It means that the African vampires do not fear the sun It means that the sun cannot save you from an African vampire There are African vampires in the United States They came to this country during the slave trade Most of them look like ordinary African American people but there are Bitalos in every race African vampires do not like blood that much To them it is like milk good for their health Some call them cannibal vampires or ghouls vampires because their main food is people They like their food prepared in many ways fried baked barbequed and ground like hamburgers There are quite a few African vampires in the United States Now they are planning to take over the United States Somebody has got to stop them John Irungu has killed quite a few Bitalos but he is a very old man now and he is becoming senile Also there would seem to be very few Irungu Knights left But John Irungu has a much younger friend named John David Hunter also known as the Preacher The preacher just might be a natural born Irungu Knight He just might be the Chosen One Bitalo prophecy warns them of the coming of a man who could destroy them He would be a descendant of Curtis Jore the man of war the man who destroyed their ancient vampire Could this preacher be the Chosen One *A Nation of Neighborhoods* Benjamin Looker, 2015-10-22 Despite the pundits who have written its epitaph and the latter day refugees who have fled its confines for the half acre suburban estate the city neighborhood has endured as an idea central to American culture In *A Nation of Neighborhoods* Benjamin Looker presents us with the city neighborhood as both an endless problem and a possibility Looker investigates the cultural social and political complexities of the idea of neighborhood in postwar America and how Americans grappled with vast changes in their urban spaces from World War II to the Reagan era In the face of urban decline competing visions of the city neighborhood's significance and purpose became proxies for broader debates over the meaning and limits of American democracy By studying the way these contests unfolded across a startling variety of genres Broadway shows radio plays urban ethnographies real estate documents and even children's programming Looker shows that the neighborhood ideal has functioned as a central symbolic site for advancing and debating theories about American national identity and democratic practice
