The One And Indivisible French Republic:

The One and Indivisible French Republic Jack Ernest Shalom Hayward, 1974 This original and absorbing book uses geography in the classic terminology of Marc Bloch and Lucien Febvre to make room for sociology to explain the widely recognized but never systematized duality of French politics In the process it develops models that are valid in other times and places as well as in France and that challenge many prevailing interpretations of the political and economic development of Europe

Tensions in the Territorial Politics of Western Europe R. A. W. Rhodes, Vincent Wright, 2025-09-12 **Tensions in the Territorial Politics of Western Europe** 1987 examines the massive postwar increase in European government intervention a major element being the development of welfare services provided by sub central units of government Governments have faced the dilemma of being electorally accountable for services delivered through differentiated disaggregated policy systems The territorial distribution of functions has become a major political and policy issue and government centres have developed strategies for regulating the function based policy system The term territorial politics refers to the arena of political activity concerned with the

relations between central and sub central organisations while recognising the need to return to history The objectives of this work are to argue for a focus on territorial politics to demonstrate that the analysis of territorial politics requires an exploration of historical context and to analyse contemporary problems in territorial politics focusing on functional allocation interest articulation central regulation and the distributional consequence of policy networks *Blacks, Mulattos, and the Dominican Nation* Franklin Franco, 2015-04-24 *Blacks Mulattos and the Dominican Nation* is the first English translation of the classic text *Los negros los mulatos y la naci n dominicana* by esteemed Dominican scholar Franklin J Franco Published in 1969 this book was the first systematic work on the role of Afro descendants in Dominican society the first society of the modern Americas where a Black Mulatto population majority developed during the 16th century Franco s work a foundational text for Dominican ethnic studies constituted a paradigm shift breaking with the distortions of traditional histories that focused on the colonial elite to place Afro descendants slavery and race relations at the center of Dominican history This translation includes a new introduction by Silvio Torres Saillant Syracuse University which contextualizes Franco s work explaining the milieu in which he was writing and bringing the historiography of race slavery and the Dominican Republic up to the present Making this pioneering work accessible to an English speaking audience for the first time this is a must have for anyone interested in the lasting effects of African slavery on the Dominican population and Caribbean societies

The End of Empire in French West Africa Tony Chafer, 2002-06-01 In an effort to restore its world power status after the humiliation of defeat and occupation France was eager to maintain its overseas empire at the end of the Second World War Yet just fifteen years later France had decolonized and by 1960 only a few small island territories remained under French control The process of decolonization in Indochina and Algeria has been widely studied but much less has been written about decolonization in France s largest colony French West Africa Here the French approach was regarded as exemplary that is a smooth transition successfully managed by well intentioned French politicians and enlightened African leaders Overturning this received wisdom Chafer argues that the rapid unfurling of events after the Second World War was a complex piecemeal and unpredictable process resulting in a successful decolonization that was achieved largely by accident At independence the winners assumed the reins of political power while the losers were often repressed imprisoned or silenced This important book challenges the traditional dichotomy between imperial and colonial history and will be of interest to students of imperial and French history politics and international relations development and post colonial studies *Pluralist Thought and the State in Britain and France, 1900-25* Cécile Laborde, 2000-03-07 This is the first comparative study of early twentieth century French and British schools of political pluralism A wide ranging survey of the works of thinkers such as JN Figgis GDH Cole Harold Laski Edouard Berth Maxime Leroy and L on Duguit *Pluralist Thought and the State in Britain and France 1900 25* is a major contribution both to the study of national tradition of political thought and to the understanding of relationships between state groups and individuals in democratic societies *History of Switzerland* Wilhelm Oechsli, 1922 **The**
