rich at school Forget that you never even learned personal finance or how to handle money It further touches upon how you can get smart with personal finance Perhaps the biggest argument Laura makes is the fact that everything can change if you change your mindset Buying that expensive dress impulsive buying etc are all signs of a poor mentality If you make changes to your lifestyle and spending habits today you will reap the benefits tomorrow On making money Laura s approach is simple she emphasizes on investing spend less and plan for a long term This isn t something new We have all heard it But we never implement it Laura gives real life examples of how you can start your journey to being rich by investing for a long term planning your finances and by staying on a budget Last but not the least she focuses on self investment by developing your mental financial and emotional intelligence To sum up Laura has come up with a book that truly focuses on the core problem today financial planning and money making is simply not taught at schools The book truly provides a step by step guide to change your thinking about money set realistic goals and embark a journey towards riches **Cambridge International**
