PRINCIPLES OF MANAGEMENT GUPTA, MEENAKSHI, 2009-01-29 Modern businesses are placed in a complex and intricate environment. The constraints imposed and the opportunities provided by the nature of the economic, political, legal, social, and demographic factors have a profound impact on the business. Management is a process by which managers continuously reinvent themselves to meet the organizational goals and global competition. A good manager must also possess a sound understanding of human behaviour to develop the most important managerial skill of empathy. This book is a first level introduction to the field of management enabling students to understand what managers do, what skills are needed by managers, what their basic functions are, and in a nutshell what management is all about. The book elaborately describes the five functions of a manager: Planning, Organizing, Human Resource Management, Leading, and Directing and Control. The chapter end exercises and practice quizzes encourage the student to rehearse the various concepts learnt throughout the text. The book is useful for students pursuing courses in Business Management both at the undergraduate and postgraduate levels. It is also a useful text for undergraduate students pursuing courses in engineering disciplines and other professional courses where Principles of Management is part of the curriculum. A distinguishing feature of this text is that there is a visible bias of author's training in Psychology.

Tool and Manufacturing Engineers Handbook: Manufacturing Management Raymond F. Veilleux, 1988-12-12 Engineers, corporate managers, project managers, and production managers will use Manufacturing Management to answer important planning questions, manage new systems and technologies, and to integrate design, engineering, and manufacturing to bring products to market faster at the most competitive cost. Volume 5 also helps you focus on management's role in quality programs such as setting objectives, monitoring outcomes, and how to make continuous quality improvements while reducing quality costs.
