The Oracle Of The Bones Set:

The Oracle Bone Inscriptions from Huayuanzhuang East Adam C. Schwartz, 2019-11-18 Since 1899 more than 73 000 pieces of inscribed divination shell and bone have been found inside the moated enclosure of the Anyang core at the former capital of the late Shang state Nearly all of these divinations were done on behalf of the Shang kings and has led to the apt characterization that oracle bone inscriptions describe their motivations experiences and priorities There are however much smaller sets of divination accounts that were done on behalf of members of the Shang elite other than the king First noticed in the early 1930 s grouped and periodized shortly thereafter oracle bone inscriptions produced explicitly by or on behalf of royal family groups reveal information about key aspects of daily life in Shang society that are barely even mentioned in Western scholarship The newly published Huayuanzhuang East Oracle Bone inscriptions are a spectacular addition to the corpus of texts from Anyang hundreds of intact or largely intact turtle shells and bovine scapulae densely inscribed with records of the divinations in which they were used They were produced on the behalf of a mature prince of the royal family whose parents both alive and still very much active almost certainly were the twenty first Shang king Wu Ding r c 1200 B C and his consort Lady Hao fu Hao The Huayuanzhuang East corpus is an unusually homogeneous set of more than two thousand five hundred divination records produced over a short period of time on behalf of a prince of the royal family There are typically multiple records of divinations regarding the same or similar topics that can be synchronized together which not only allows for remarkable access into the esoteric world of divination practice but also produce micro reconstructions of what is essentially East Asia s earliest and most complete day and month planner Because these texts are unusually linguistically transparent and well preserved homogeneous in orthography and content and published to an unprecedentedly high standard they are also ideal material for learning to read and interpret early epigraphic texts The Huayuanzhuang East oracle bone inscriptions are a tremendously important Shang archive of material documents that were produced by a previously unknown divination and scribal organization They expose us to an entirely fresh set of perspectives and preoccupations centering on a member of the royal family at the commencement of China s historical period The completely annotated English translation of the inscriptions is the first of its kind and is a vibrant new source of Shang history that can be accessed to rewrite and supplement what we know about early Chinese civilization and life in the ancient world Before the discerning reader are the motives preoccupations and experiences of a late Shang prince working simultaneously in service both for his Majesty his parents and his own family

These Bones Shall Rise Again David N. Keightley, 2014-08-12 These Bones Shall Rise Again brings together in one volume many of David N Keightley s seminal essays on the origins of early Chinese civilization Written over a period of three decades and accessible to the non specialist these essays provide a wealth of information and insights on the Shang dynasty traditionally dated 1766 1122 or 1056 BCE Of all the eras of Chinese history the Shang has been a particularly elusive one long considered more myth than reality A historian with a keen appreciation for anthropology and archaeology Keightley has given us many descriptions of Shang life Best known for his analysis of oracle bones he has looked beyond the bones themselves and expanded his historical vision to ponder the lives of those who used them What did the Shang diviner think he was doing The temerity to ask such questions and the insights they have provided have been provocative and at times controversial Equally intriguing have been Keightley s assertions that many of the distinctive features of Chinese civilization were already in evidence during the Shang 3000 years ago In this collection readers will find not only an essential reference but also the best kind of thought provoking scholarship
