Architecture and the pictorial arts from antiquity to the enlightenment Christy Anderson,Karen Koehler,2002 The festivals of the four months caturm sa stand apart from other festive occasions in Kathmandu Nepal in their overriding concern with death These festivals are sacrificial feasts dealing with the riddle of life and death in the Hindu Buddhist context of South Asia Caturmasa festivals are collective supralocal affairs crossing the border between the upper and the lower part of the town they involve the whole town of Kathmandu and the king of Nepal who is both sacrificer and victim The two main themes of the celebrations of death are sacrifice and kingship **Subject Guide to Books in Print** ,1997 **The**

Ascendancy of Theravāda Buddhism in Southeast Asia Praphôt 'Atsawawirunhakān,2010 This wide ranging account of

early Buddhism in Southeast Asia overthrows dominant theories among both Western and Asian Scholars The author argues that Pali based Buddhism was brought from India and Sri Lanka by merchants monks and pilgrims by the fourth century Several schools flourished alongside Brahmanism Mahayanism and local spirit beliefs in coexistence rather than conflict There was no conversion to Theravada in the eleventh century as the school was already well established Prapod draws on a broad range of source material including inscriptions texts archaeology iconography architecture and anthropology from India Sri Lanka China and the region itself He highlights the lived tradition of religious practice rather than scriptural sources **Asia Major** ,1993 **Buddhist Sculptures in Tibet: India & Nepal** Ulrich von Schroeder,2001 The more 1100 sculptures in these two volumes represent the long overdue publication of the most important sculptures in custody of Tibetan monasteries East and West ,1995 Water and Sacred Architecture Anat Geva,2023-05-25 This edited book examines architectural representations that tie water as a physical and symbolic property with the sacred The discussion centers on two levels of this relationship how water influenced the sacredness of buildings across history and different religions and how sacred architecture expressed the spiritual meaning of water The volume deliberately offers original material on various unique contextual and design aspects of water and sacred architecture rather than an attempt to produce a historic chronological analysis on the topic or focusing on a specific geographical region As such this unique volume adds a new dimension to the study of sacred architecture The book's chapters are compiled by a stellar group of scholars and practitioners from the US Canada Europe Asia and Africa It addresses major aspects of water in religious buildings such as rituals pilgrimage water as a cultural material and place making hydro systems modern practices environmental considerations the contribution of water to transforming secular into sacred and future digital cyber context of water and sacredness All chapters are based on original archival studies historical documents and field visits to the sites and buildings These examinations show water as an expression of architectural design its materiality and its spiritual values The book will be of interest to architects historians environmentalists archaeologists religious scholars and preservationists
