De las luchas estudiantiles a las filas de la revolución. Chiloé y Cautín 1968-1973 Alonso Azócar Avendaño, 2020-10-05 Relato conmovedor que combina elementos autobiográficos con otros testimonios de distinta naturaleza entrevistas recuerdos de otras personas documentos y libros para presentar la vida de un niño chilote criado en una pequeña localidad de la isla en el seno de un hogar formado por dos profesores militantes del Partido Socialista y varios hermanos A los 16 años siendo estudiante del Liceo de Castro se inicia en el mundo político integrándose al Movimiento de Izquierda Revolucionaria MIR Hacer la revolución Aldo Marchesi, 2019-11-20 Como contar el mpetu revolucionario de los años sesenta y setenta desde un tiempo que no es revolucionario Como capturar un clima de poca radicalizado que todavía produce preguntas vividas en la discusión contemporánea Siguiendo la trayectoria de militantes argentinos chilenos uruguayos brasileños y bolivianos Aldo Marchesi estudia el nacimiento y la expansión de una red de organizaciones de jóvenes militantes de izquierda que al calor de la Revolución cubana y de la polarización ideológica de la Guerra Fría promovieron la violencia política y las estrategias transnacionales como nuevos caminos para alcanzar el cambio social Los movimientos de la nueva izquierda estaban convencidos de que la izquierda tradicional era incapaz de generar situaciones revolucionarias y de resistir el avance del autoritarismo y la hegemonía estadounidense en América Latina Así confiaron en la lucha armada y construyeron repertorios de protesta y de acción colectiva novedosos como la táctica de la guerrilla urbana o el exilio en el Chile de Salvador Allende en la Argentina peronista entre 1973 y 1976 como parte de una estrategia de lucha continental Desde un enfoque original mismo que lo convierte en una obra de referencia actualizada sobre el tema Hacer la revolución ofrece piezas nuevas decisivas para entender la historia de la izquierda el surgimiento del autoritarismo en la región y el papel activo de las periferias en los países centrales Porque no sólo cuenta los años de la pica revolucionaria los años del fracaso y el repliegue y

el tiempo de la adaptación a la nueva coyuntura democrática cuando las preguntas por la igualdad y el socialismo siguen vigentes sino que además revela el lugar que ocupan sus figuras icónicas sus debates sus opciones políticas en la revuelta global de los sesenta

Dependency Theories in Latin America André Magnelli, Felipe Maia, Paulo Henrique Martins, 2024-08-12 This book offers a discussion of the origins of Latin American dependency theories and their implications for contemporary social theory The book explores the conditions of emergence of this intellectual movement the trajectories of some of its main formulators as well as the circulation of their ideas their reception in other contexts and their influence on other theoretical formulations and problems of the present The book is aimed at social scientists interested in broadening the scope of social theory towards the Global South in processes of knowledge circulation between central and semi peripheral regions as well as in understanding the problems of dependency modernisation and development processes in Latin America The book can be used both as an introduction to these themes and to delve deeper into specific issues

The Dialectics of Dependency Ruy Mauro Marini, 2022-11 A foundational essay of class struggle published in English for the first time Considered one of the most important intellectuals in Latin American social thought Ruy Mauro Marini demonstrated that underdevelopment and development are the result of relations between economies in the world market and the class relations they engender In *The Dialectics of Dependency* the Brazilian sociologist and revolutionary showed that as Latin America came to specialize in the production of raw materials and

foodstuffs while importing manufactured goods a process of unequal exchange took shape that created a transfer of value to the imperialist centers This encouraged capitalists in the periphery to resort to the superexploitation of workers harsh working conditions where wages fall below what is needed to reproduce their labor power In this way the economies of Latin America which played a fundamental role in facilitating a new phase of the industrial revolution in western Europe passed from the colonial condition only to be rendered economically dependent or subordinated to imperialist economies This unbalanced relationship which nonetheless allows capitalists of both imperialist and dependent regions to profit has been reproduced in successive international divisions of labor of world economy and continues to inform the day to day life of Latin American workers and their struggles Written during an upsurge of class struggle in the region in the 1970s and published here in English for the first time the revelations inscribed in this foundational essay are proving more relevant than ever The Dialectics of Dependency is an internationalist contribution from one Latin American Marxist to dispossessed and oppressed people struggling the world over and a gift to those who struggle from within the recesses of present day imperialist centers nourishing today s efforts to think through the definition of revolution on a global scale

Towards An Unknown Marx Enrique Dussel,2002-09-11 This book is the first complete commentary on Marx s manuscripts of 1861 63 works that guide our understanding of fundamental concepts such as surplus value and production price The recent publication of Marx s writings in their entirety has been a seminal event in Marxian scholarship The hitherto unknown second draft of Volume 1 and first draft of Volume 3 of Capital both published in the Manuscripts of 1861 63 now provide an important intermediate link between the Grundrisse and the final published editions of Capital In this book Enrique Dussel one of the most original Marxist philosophers in the world today provides an authoritative and detailed commentary on the manuscripts of 1861 63 The main points which Dussel emphasises in this path breaking work are The fundamental category in Marx s theory is living labour which exists outside of capital and which capital must subsume in order to produce surplus value Theories of Surplus Value is not a historical survey of previous theories but rather a critical confrontation through which Marx developed new categories for his own theory The most important new categories developed in this manuscript are related to the forms of appearance of surplus value The final part of the book discusses the relevance of the Manuscripts of 1861 63 to contemporary global capitalism especially to the continuing underdevelopment and extreme poverty of Latin America

The New Brazil ,2014-06-15 In the midst of a rapidly shifting global economy Brazil has emerged as a powerful new player on the geopolitical stage Against all odds the

Latin American nation managed in just three years to repay a 2002 15 5 billion IMF bailout loan thanks to aggressive economic restructuring and a series of alliances that have placed it at the center of political and economic power in the region From the outside Brazil is a poster child for neoliberal capitalism Yet inside the country the lives of the Brazilian people are still marked by vast inequities in wealth and access to social services a striking disparity with the nation's newfound power in the global economy In June of 2013 protests against the increasing costs of public transportation swelled to mass demonstrations against the Rousseff government's failure to address this disparity leading many to wonder whether the popular movements in Brazil may be just powerful enough to shift the nation's influence towards a wholly new economic model based in regional integration The New Brazil explores this disparity Will the nation serve as the glue that holds together the Latin American states distancing themselves from the neoliberalism of the United States and Canada Or will Brazil simply become another world superpower able to subject the rest of Latin America to its will Only time will tell Raul Zibechi is a journalist and social movement analyst based in Montevideo Uruguay He is the author of numerous books including *Dispersing Power and Territories in Resistance* both published by AK Press *An Introduction to the Multinationals* Margaret Allen, Michel Ghertman, trans Christina Laporte, 1984-02-23 *Cine, revolución y resistencia* Salvador Salazar Navarro, 2020-09-15 A lo largo de estas páginas se hace un recorrido cronológico por las principales expresiones de la política cultural desarrollada por el Instituto Cubano de Cine hacia América Latina desde inicios de la década del sesenta hasta finales del siglo XX A partir del análisis de los filmes *Cumbite* 1964 Tomás Gutiérrez Alea *Cantata de Chile* 1975 Humberto Solís *Amor en campo minado* 1987 Pastor Vega y *Mascar el cazador americano* 1991 Constante Rapi Diego se ejemplifican los hitos más destacados de esta política y los proyectos ideológicos que les dieron sustento Se estudia además un conjunto de obras de Santiago Alvarez considerado el exponente más significativo de la documental política cubana Historiar las relaciones entre el ICAIC y América Latina permite profundizar en una lectura compleja de los vínculos exteriores de la Revolución Cubana en específico lo concerniente a las interrelaciones entre actores e instituciones El objetivo último de este libro es aportar en la construcción de un relato crítico de la cultura cubana posterior a 1959 con respecto a Latinoamérica
