**Subject and Psyche** Robert M. Doran,1977      **Subject and Psyche** Robert M. Doran,1994-01-01      *Philosophical and Theological Papers, 1965-1980* Bernard Lonergan,2004-06-02 A companion to *Philosophical and Theological Papers* 1958 1964 Volume 6 in the *Collected Works of Bernard Lonergan* series this anthology contains Lonergan's lectures on philosophy and theology given during the later period of his life 1965 1980 These papers document his development in the discipline during the years leading up to the publication of *Method in Theology* and beyond to 1980 when he was more engaged in his writings and seminars on macroeconomics *Philosophical and Theological Papers* 1965 1980 is divided into five sections forming units on the basis of dates The three central sections are each a set of lectures respectively given at the Massachusetts Institute of Technology Gonzaga University in Spokane and Trinity College University of Toronto Although there is some repetition amongst the lecture sets and in relation to other more familiar works this repetition displays occasional new turns of phrase that the careful reader will note In at least one instance familiar material suddenly opens out onto expressions not to be found anywhere else in Lonergan's work Other very interesting developments regard the movement from speaking of the immutability of dogmas to their permanence of meaning and the permutations among real self transcendence performative self transcendence and moral self transcendence      *Philosophical and Theological Papers, 1965-1980* Bernard J. F. Lonergan,2004-01-01 This anthology contains Lonergan's lectures on philosophy and theology given during the later period of his life 1965 1980 and document his development in the discipline during the years leading up to the publication of *Method in Theology* and beyond to 1980      **Lonergan and the Philosophy of Historical Existence** Thomas J. McPartland,2001 Bernard Lonergan's ambitious study of human knowledge based on his theory of consciousness is among the major achievements of twentieth century philosophy He challenges the principles of contemporary intellectual culture by finding norms and standards not in external perceptions or reified concepts but in the dynamism of consciousness itself      **Subject and Psyche** Robert M. Doran,1977-08-30      **An Introduction to the Philosophy of Bernard Lonergan** Hugo A. Meynell,1991-02-01 This is an introduction to the philosophy of a Christian thinker of the 20th century The author pursues his thesis through mathematics empirical science common sense depth psychology and social theory into metaphysics ethics and natural theology      *The Naturalists and the Supernatural* William M. Shea,1984      *Paul Ricoeur* Charles E. Reagan,1998-06-22 Reagan combines different genres to supplement and enhance the central biographical essay A personal memoir recalls the turbulent student protests of the 1960s and Ricoeur's controversial resignation as head of the faculties at the University of Paris Nanterre A penetrating philosophical exposition draws together the essential themes of Ricoeur's philosophical anthropology And a collection of four substantive interviews offers privileged access to Ricoeur's own remarkably clear explication of his most challenging and stimulating ideas The result of this innovative mix of genres is a multidimensional and astonishingly perceptive portrait of a seminal philosopher's life and work      **Philosophers of**

**Consciousness** Eugene Webb, 2014-12-01 *Philosophers of Consciousness* is both an expository study of the thought of the six figures it focuses on and an original exploration of the themes they address. In addition, as Eugene Webb states, it does not hesitate to probe the more problematic areas of the thought of each thinker and to suggest what to some of their advocates will probably seem rather bold and controversial interpretations of their ideas. The book reveals some deep differences that set the six off against one another in what is basically a clash between the intellectual emphasis of Lonergan and the more existential approaches of the other thinkers in this study. Readers of Kierkegaard may find much of Webb's interpretation surprising and perhaps disturbing.

*Lonergan and Historiography* Thomas J. McPartland, 2010-04-15 Although Bernard Lonergan is known primarily for his cognitional theory and theological methodology, he long sought to formulate a modern philosophy of history free of progressive and Marxist biases. Yet he never addressed this in any single work, and his reflections on the subject are scattered in various writings. In this pioneering work, Thomas McPartland shows how Lonergan's overall philosophical position offers a fresh and comprehensive basis for considering historiography. Taking Lonergan's philosophy of historical existence into the realm of an epistemological philosophy of history, he demonstrates how the philosopher's approach builds on the actual performance of historians and, as a result, integrates the insights of historical specialists into a framework of functional complementarity. McPartland draws on all of Lonergan's philosophical writing as well as on the vast literature of historiography to detail Lonergan's notions of historical method, historical objectivity, and historical knowledge. Along the way, he explains what Lonergan means by hermeneutics, by historical description, explanation, ideal types, and narrative, by evaluative and dialectical analyses, and how these elements are all functionally related to each other. He also delineates the defining features of psychohistory, cultural history, intellectual history, history of ideas, and history of philosophy, indicating how these disciplines play complementary roles in the critical encounter with the past. Ultimately, McPartland argues that Lonergan has established the principles of a historical discipline, the history of consciousness, that weaves together a philosophy of consciousness with rigorous historical research to grasp long-term trends resulting from differentiations of consciousness. His work offers a distinct perspective on historical method that takes historical objectivity seriously while providing new insight into the thought of this important philosopher.

*Foundations of Religious Literacy* John V. Apczynski, 1982 Originally published by the College Theology Society in 1982, this collection of essays addresses issues of religious literacy. The explorations forming the unifying motif here focus on where religious classics can be found today, how they are encountered, and how their meaning is properly grasped and expressed. These concerns are vital to those engaged professionally in the transmission, assimilation, and creative development of our cultural heritage. Co-published with the College Theology Society.

*Bernard Lonergan's Third Way of the Heart and Mind* John Raymaker, 2016-09-30 Today the world is confronted with many religious wars and the migrations of millions of persons due to these conflicts. There is a need for informed dialog as to the roots of the conflicts and ways of addressing these in ways that speak to people's minds and

hearts This is what this book attempts to do from the viewpoint of major religious and ethical thinkers The book relies on Bernard Lonergan s foundational method to address problems systematically with a view to achieve breakthroughs in our openness to one another The book appeals to the teachings of the Buddha Jesus and Mohammad relying on the mystical and insights of these religious founders as well as those of dozens of their followers so as to find commonalities that can build bridges of mercy A global secularity ethics plays a leading role in this book s bridging efforts **Lonergan and Feminism**

Cynthia S. W. Crysdale,1994-01-01 While Lonergan s work has been developed and applied to a range of cultures and ideas few scholars have addressed the question of whether it is subject to feminist critique And few feminists have employed the transcendental method of Lonergan to aid the feminist scholarly agenda This collection of ten essays initiates dialogue among scholars interested in Lonergan and concerned with feminism and engages several fields of enquiry philosophy natural science human science ethics and theology Frederick E Crowe deals with the challenges involved when one applies the work of a generalist such as Lonergan to a particular set of concerns such as those of feminists Three articles by philosophers Paulette Kidder Michael Vertin and Elizabeth Morelli treat questions of epistemology and gender Cynthia Crysdale discusses women s ways of knowing from a social scientific perspective Articles by Tad Dunne and Denise Carmody deal with the question of authenticity and the criteria by which feminist truths are delineated Michael Shute examines Lonergan s work on emergent probability in light of eco feminist critiques of the great chain of being Mary Frohlich addresses the question of the theological significance of sexuality Charles Hefling examines Lonergan s Christology in reference to the feminist question of whether a male saviour can save women Lonergan invites his readers to engage in an experiment in cognitive self appropriation Lonergan and Feminism encourages this experiment **The Eucharistic Vision of Laudato Si** Lucas

Briola,2022-12-28 No other encyclical has generated as much conversation both Catholic and non Catholic as Laudato si Often forgotten in these conversations is the theological heart and eucharistic vision of the encyclical and its integral ecology Even the title of Laudato si Praised be signals the centrality of right praise in caring for our common home Using Bernard Lonergan s theology of history this book unearths the doxological eucharistic vision that shapes the encyclical s integral presentation of social and ecological conversion It offers the first book length study that recovers the eucharistic nature of Laudato si In drawing out the eucharistic vision of Laudato si the book accomplishes several feats for the reader It roots the eucharistic dimensions of the encyclical in the writings of Popes John Paul II and Benedict XVI showing how Pope Francis develops their thought in notable ways It introduces Bernard Lonergan s theology of history showing how his framework can capture the eucharistic contours of caring for our common home so too in light of Laudato si does the book expand his theology of history to incorporate both ecological concern and the doxological eucharistic essence of the church The book assembles a liturgically shaped systematic account of the church s social mission It joins poles otherwise sundered in a polarized church and world between worship and justice between concerns for human life and concerns for the natural world

Realizing the eucharistic vision of *Laudato si* promises much for our contemporary moment Pope Francis recently observed that the integral ecology of *Laudato si* holds the key for the world's recovery from the COVID 19 pandemic The U S Catholic Bishops recently launched a Eucharistic Revival that aims to rekindle eucharistic devotion and praxis The Eucharistic Vision of *Laudato Si* Praise Conversion and Integral Ecology supplies a timely study that helps fulfill these intertwined calls
