Philosophical Skepticism as the Subject of Art David Carrier, 2022-12-01 The artwork of Maria Bussmann a trained academic German philosopher and a significant visual artist provides an ideal test case for a philosophical study of visual art Bussmann has internalized the relationship between art and philosophy In this exploration of the history of German aesthetics through Bussmann's work David Carrier places the philosophical tradition in the context of contemporary visual culture Each chapter focuses on the arguments of a major philosopher whose concerns Bussmann has dealt with as an artist Kant Hegel Merleau Ponty Wittgenstein and Arendt Offering comparative accounts of artists and philosophers whose work is of especial relevance Carrier shows how Bussmann responds visually to writings of philosophers in art that has an elusive but essential relationship to theorizing Tackling the question of whether philosophical subjects can be presented visually Carrier offers a fresh perspective on the German idealist position through the visual art of 21st century artist steeped in the tradition and continually challenging it through her work **Catalogue** Swarthmore College, 1929 **The Subject of Philosophy**

Philippe Lacoue-Labarthe, 1993 The Subject of Philosophy presents a sustained examination of the relation between literature and philosophy with special emphasis on the problem of the subject and of representation Spanning the history of philosophy from Plato and Aristotle to Hegel Nietzsche Freud and Heidegger and addressing such major moments in the history of literature as Greek tragedy and German romanticism The book repeatedly raises the question whether philosophy's very attempts to distinguish itself from literature are not conditioned and exceeded by a fundamental inextricability of the two In these readings Lacoue Labarthe focuses on such issues as the nature of fiction and of figurative language the fate of the work the status of the author the question of madness and the definition of gender He broaches as well the analysis of mimesis the most important concept of his later work and one that already gives to his persistent aesthetic preoccupations an ethical and political resonance Philippe Lacoue Labarthe is the author of many books including Typography Mimesis Philosophy Politics Heidegger Art and Politics and with Jean Luc Nancy The Literary Absolute This book is intended for those in the fields of literary theory philosophy *On Signs* Marshall Blonsky, 1985-08 Contributors include Roland Barthes Michel de Certeau Jacques Derrida Edmundo Desnoes Umberto Eco Michel Foucault Julia Kristeva Jacques Lacan Thomas A Sebeok and others

Fundamental Philosophy Jaime Luciano Balmes, 1871 **Death, Time and the Other** Saitya Brata Das, 2020-01-27 This book addresses the limits of metaphysics and the question of the possibility of ethics in this context It is divided into six chapters the first of which broadens readers understanding of difference as difference with specific reference to the works of Hegel The second chapter discusses the works of Emmanuel Levinas and the question of the ethical In turn the concepts of sovereignty and the eternal return are discussed in chapters three and four while chapter five poses the question of literature in a new way The book concludes with chapter six The book represents an important contribution to the field of contemporary philosophical debates on the possibility of ethics beyond all possible metaphysical and political closures As

such it will be of interest to scholars and researchers in both the humanities and social sciences Beyond the academic world the book will also appeal to readers journalists intellectuals social activists etc for whom the question of the ethical is the decisive question of our time

Philosophy in a Meaningless Life James Tartaglia, 2015-12-17 This book is open access and available on www.bloomsburycollections.com It is funded by Knowledge Unlatched Philosophy in a Meaningless Life provides an account of the nature of philosophy which is rooted in the question of the meaning of life It makes a powerful and vivid case for believing that this question is neither obscure nor obsolete but reflects a quintessentially human concern to which other traditional philosophical problems can be readily related allowing them to be reconnected with natural interest and providing a diagnosis of the typical lines of opposition across philosophy's debates James Tartaglia looks at the various ways philosophers have tried to avoid the conclusion that life is meaningless and in the process have distanced philosophy from the concept of transcendence Rejecting all of this Tartaglia embraces nihilism we are here with nothing to do and uses transcendence both to provide a new solution to the problem of consciousness and to explain away perplexities about time and universals He concludes that with more self awareness philosophy can attain higher status within a culture increasingly in need of it

Phenomenology and Deconstruction, Volume One Robert Denoon Cumming, 1991

Cumming also shows that conversion is not merely a personal predisposition of Sartre's further manifest in his later conversions to Heidegger and to a version of Marxism Conversion is also philosophical preoccupation illustrated by the conversion to the imaginary whereby Sartre explains how he himself as well as Genet and Flaubert became writers Finally Cumming details how Husserl's phenomenological method contributed both to the shaping of Sartre's style as a literary writer and to his theory of style *Report of the President of Harvard College and Reports of Departments* Harvard University, 1910 Theory of the Subject Alain Badiou, 2009-07-28 Badiou is widely considered to be France's most

important and exciting contemporary thinker Much of Badiou's earlier work including *Being and Event* can only be fully understood with a clear grasp of *Theory of the Subject* one of his most important works **Judith Butler, Michel**

Foucault, and the Theology of Freedom Gunda Werner, 2023-12-22 This book explores how Judith Butler's work on gender and the shaping of the human subject and Michel Foucault's notion of parrhesia speaking the truth can be made fruitful for a theology of freedom The volume illustrates the importance of three concepts freedom gender body and power critique and how this triad provides the foundational categories and structural elements of a theology of freedom By starting from an analysis of power and the performative potential of gendered embodiment freedom can be thought of as the basis of creative and critical human action and thereby implemented in theology The chapters feature several theological historical case studies that are representative of topics that continue to shape contemporary Catholic norms and thought In particular the author reflects on the 13th century with the idea of personal sin and confession and the 19th century with a gender ideology that has led to the marginalization of difference and dissent The book shows how Butler and Foucault can provide essential insights for Catholic theology and is valuable reading for scholars of religion philosophy and gender and sexuality studies **The Pursuit of Wisdom and Happiness in Education** Sean Steel, 2014-05-21 Explores the nature and role of

wisdom in education Modern scholarship has struggled to come to terms with the meaning of wisdom and its significance in the field of education This book examines the importance of pursuing wisdom in schools by turning to ancient and medieval sources for clarification concerning the nature of wisdom Sean Steel argues that our current emphasis on the development of rigorous critical analytic thinking skills on assessment and on accountability in education has negatively impacted the ability of schools to foster an environment in which both students and teachers might pursue wisdom Although in recent times efforts have been made to incorporate the pursuit of wisdom into schools through Philosophy for Children P4C and contemplative education programming such initiatives have missed their mark Steel therefore recommends not more accountability in education for the purpose of ensuring global competitiveness but rather the institutional promotion of periods of leisure or *scholē* in the school day Drawing upon his own experiences as a teacher who has tried to encourage students to search for wisdom the author discusses some of the challenges and pitfalls of wisdom seeking He also offers examples of various wisdom seeking activities that might bear fruit in the classroom **An Introduction To Psychology**
