Subjunctive Reasoning:

Subjunctive Reasoning J.L. Pollock, 2012-12-06 I am indebted to many people for the help they gave me in the writing of this book I owe a large debt to David Lewis and Robert Stalnaker on both general and specific grounds As becomes apparent from reading the notes the book would not have been possible without their pioneering work on subjunctive conditionals In addition both were kind enough to provide specific comments on earlier versions of different parts of the book and Stalnaker read and commented on the entire manuscript Closer to home I am indebted to my colleagues Rolf Eberle and Henry Kyburg If my erstwhile colleague Keith Lehrer and numerous graduate students for their helpful comments on various parts of the manuscript Some of the material contained herein appeared first in the form of journal articles and I wish to thank the journals in question for allowing the material to be reprinted here Chapter One contains material taken from The Possible Worlds Analysis of Counterfactuals published in Phil Studies 29 1976 469 Reidel Chapter Two contains material much revised from Four Kinds of Conditionals Am Phil Quarterly 12 1975 and Chapter Three contains much revised material from Subjunctive Generalizations Synthese 28 1974 199 Reidel CHAPTER I INTRODUCTION 1 SUBJUNCTIVE REASONING There exists quite a variety of statements which are in some sense subjunctive *Principles of Knowledge Representation and Reasoning* Bernhard Nebel, Charles Rich, William R.
